District personnel who interact with students are expected to use disciplinary action only when necessary and to place emphasis on the students' ability to grow in self-discipline.

The Board recognizes the need to make its expectations for student conduct while on school property or engaged in a school function specific and clear. The rules of conduct listed below are intended to do that and focus on safety and respect for the rights and property of others. **E. Engage in any conduct that endangers the safety, morals, health or welfare of others. Examples of such conduct include:**

  7. "Electronic bullying" (also referred to as "cyberbullying") including the use of instant messaging, email, websites, chat rooms, text messaging, or by any other electronic means, when such use interferes with the operation of the school; or infringes upon the general health, safety and welfare of students or employees.
  8. Sexual harassment, which includes unwelcome sexual advances, requests for sexual favors, taking, sending, displaying, forwarding, or receiving sexually explicit videos, pictures or auditory recordings and other verbal or physical conduct or communication of a sexual nature
  9. Hazing, which includes any intentional or reckless act directed against another for the purpose of initiation into, affiliating with or maintaining membership in any school sponsored activity, organization, club, or team.
  10. Selling or possessing obscene material.
  11. Using vulgar or abusive language, cursing, or swearing.
  12. Possessing, consuming, selling, attempting to sell, distributing or exchanging alcoholic beverages, tobacco, tobacco products or illegal and/or controlled substances, counterfeit and designer drugs, or paraphernalia for use of such drugs or be under the influence of any such substances on school property or at a school function.   16. Initiating a report warning of fire or other catastrophe without valid cause, misuse of 911, or discharging a fire extinguisher.

Items that are confiscated from students which aren't allowed in school will be turned over to the law enforcement. Suspicious paraphernalia or substances will be submitted through them for testing.

#### **F. Engage in misconduct while on a school bus.**

It is crucial for students to behave appropriately while riding on District buses to ensure their safety and that of other passengers and to avoid distracting the bus driver. Students are required to conduct themselves on the bus in a manner consistent with established standards for classroom behavior. Excessive noise, pushing, shoving, and fighting will not be tolerated. **G. Engage in any form of academic misconduct. Examples of academic misconduct include:**

1. Plagiarism.
2. Cheating.
3. Copying.
4. Altering records.
5. Assisting another student in any of the above actions.

**H. Cyberbullying**

Cyberbullying includes, but is not limited to, the following misuses of technology: harassing, discriminating, teasing, intimidating, threatening, or terrorizing another student or staff member by way of any technological tool, such as sending or posting inappropriate or derogatory email messages, instant messages, text messages, digital pictures of images, or website postings (including blogs) which as the effect of:

1. Physically, emotionally, or mentally harming a student.
2. Placing a student in reasonable fear of physical, emotional, or mental harm.
3. Placing a student in reasonable fear of damage to or loss of personal property.
4. Creating an intimidating or hostile environment that substantially interferes with a student's educational opportunities.

All forms of bullying are unacceptable and, to the extent that such actions are disruptive of the educational process of the School District, offenders shall be subject to appropriate staff intervention, which may result in administrative discipline. Complaints of bullying or cyberbullying shall be investigated promptly, and corrective action shall be taken when a complaint is verified. The District prohibits any retaliatory behavior directed against complainants, victims, witnesses, and/or any other individuals who participated in the investigation of the cyber-bullying complaint.

The term "bullying" and "cyberbullying" shall not be interpreted to infringe upon a student's right to engage in legally protected speech or conduct. The absence of a specific rule will not be license or reason for showing disrespect or limiting the rights of others.

## **VII. Reporting Violations**

All students are expected to promptly report violations of the Code of Conduct to a teacher, school counselor, the building Principal, or his or her designee. Any student observing a student possessing a weapon, alcohol or illegal substance on school property or at a school function shall report this information immediately to a teacher, the building Principal, the Principal's designee, or the Superintendent.

All District staff who are authorized to impose disciplinary sanctions are expected to do so in a prompt, fair, and lawful manner. District staff who are not authorized to impose disciplinary sanctions are expected to promptly report violations of the Code of Conduct to their supervisor, who shall in turn impose an appropriate disciplinary sanction, if so authorized, or refer the matter to a staff member who is authorized to impose an appropriate sanction.

Any weapon, alcohol, or illegal substance found shall be confiscated immediately, if possible, followed by a notification to the parent of the student involved and the appropriate disciplinary sanction if warranted, which may include permanent suspension and referral for prosecution.

The building Principal or his or her designee must notify the appropriate local law enforcement agency of those Code violations that constitute a crime and substantially affect the order or security of a school as soon as practical, but in no event later than the close of business the day the Principal or his or her designee learns of the violation. The notification may be made by telephone, followed by a letter mailed on the same day as the telephone call is made. The notification must identify the student and explain the conduct that violated the Code of Conduct and constituted a crime.

## **VIII. Disciplinary Penalties**

\*Principal = Principal or designee

### **Procedures and Referrals**

As a general rule, discipline will be progressive and restorative in nature. This means that a student's first violation will usually merit a lighter consequence than subsequent violations.

If the conduct of a student is related to a disability or suspected disability, the student shall be referred to the Committee on Special Education and discipline, if warranted, shall be administered consistent with the separate requirements of this Code of Conduct for disciplining students with a disability or presumed to have a disability. A student identified as having a disability shall not be disciplined for behavior related to his/her disability. Discipline is most effective when it deals directly with the problem at the time and place it occurs, and in a way that students view as fair and impartial. School personnel who interact with students are expected to use disciplinary action only when necessary and to place emphasis on the students' ability to grow in self-discipline. Disciplinary action, when necessary, will be firm, fair, and consistent so as to be the most effective in changing student behavior. In determining the appropriate disciplinary action, school personnel authorized to impose disciplinary penalties will consider the following:

1. The student's age.
2. The nature of the offense and the circumstances which led to the offense.
3. The student's prior disciplinary record.
4. The effectiveness of other forms of discipline.
5. Information from parents, teachers, and/or others as appropriate
6. Other extenuating circumstances. As a general rule, discipline will be progressive.

This means that a student's first violation will usually merit a lighter penalty than subsequent violations. If the conduct of a student is related to a disability or suspected disability, the student shall be referred to the Committee on Special Education and discipline, if warranted, shall be administered consistent with the separate requirements of this Code of Conduct for disciplining

students with a disability or presumed to have a disability. A student identified as having a disability shall not be disciplined for behavior related to his/her disability.

#### **A. Penalties**

Students who are found to have violated the District's Code of Conduct may be subject to the following penalties, either alone or in combination. The school personnel identified after each penalty are authorized to impose that penalty, consistent with the student's right to due process. The Principal and Superintendent may designate a person(s) to act in their behalf.

1. Any member of the District staff may issue an oral warning, a written warning or written notification to parent.
2. Detention – teachers, administrators
3. In-school suspension – administrators
4. Post-School detention (Monday- Thursday from 2:30-5:30)- administrators
5. Suspension from transportation – Director of Transportation, administrators
6. Suspension from athletic participation – coaches, Athletic Director, administrators
7. Suspension from social or extracurricular activities – advisor/activity director, administrators
8. Suspension of other privileges –administrators
9. Removal from classroom by teacher – teachers, administrators
10. Short-term (five days or less) suspension from school – administrators, Board of Education
11. Long-term (more than five days) suspension from school - Superintendent, Board of Education
12. Permanent suspension from school – Superintendent, Board of Education.

#### **B. Procedures**

The amount of due process a student is entitled to receive before a penalty is imposed depends on the penalty being imposed. In all cases, regardless of the penalty imposed, the school personnel authorized to impose the penalty must inform the student of the alleged misconduct and must investigate, to the extent necessary, the facts surrounding the alleged misconduct. All students will have an opportunity to present their version of the facts to the school personnel imposing the disciplinary penalty in connection with the imposition of the penalty.

Students who are to be given penalties other than an oral warning or written notification to their parents, are entitled to additional rights before the penalty is imposed. These additional rights are explained below.

##### 1. Detention

Teachers, Principals and the Superintendent may use after school detention as a penalty for student misconduct in situations where removal from the classroom or suspension would be inappropriate.

##### 2. Post-School Detention

Principals and Superintendent may use post-school detention as a penalty for student misconduct in situations where removal from the classroom or suspension would be inappropriate.

### 3. Suspension from Transportation

If a student does not conduct himself/herself properly on a bus, the bus driver is expected to bring such misconduct to the building Principal's attention. Students who become a serious disciplinary problem may have their riding privileges suspended by the building Principal or the Superintendent or their designees. In such cases, the student's parent will become responsible for seeing that his or her child gets to and from school safely. Should the suspension from transportation amount to a suspension from attendance, the District will make appropriate arrangements to provide for the student's education.

A student subjected to a suspension from transportation is not entitled to a full hearing pursuant to Education Law §3214. However, the student and the student's parent will be provided with a reasonable opportunity for an informal conference with the building Principal or the Principal's designee to discuss the conduct and the penalty involved.

### 4. Suspension from athletic participation, extra curricular activities and other privileges

A student subjected to a suspension from athletic participation, extracurricular activities or other privileges is not entitled to a full hearing pursuant to Education Law §3214. However, the student and the student's parent will be provided with a reasonable opportunity for an informal conference with the District official imposing the suspension to discuss the conduct and the penalty involved.

### 5. In-school Suspension

The Board recognizes the school must balance the need of students to attend school and the need for order in the classroom to establish an environment conducive to learning. As such, the Board authorizes building Principals and the Superintendent to place students who would otherwise be suspended from school as the result of a Code of Conduct violation in "in-school suspension." The in-school suspension teacher will be supervised by a certified teacher.

A student subjected to an in-school suspension is not entitled to a full hearing pursuant to Education Law §3214. However, the student and the student's parent will be provided with a reasonable opportunity for an informal conference with the District official imposing the in-school suspension to discuss the conduct and the penalty involved.

### 6. Teacher Disciplinary Removal of Disruptive Students

A student's behavior can affect a teacher's ability to teach and can make it difficult for other students in the classroom to learn. In most instances the classroom teacher can control a student's behavior and maintain or restore control over the classroom by using good classroom management techniques. These techniques may include practices that involve the teacher directing a student to briefly leave the classroom to give the student an opportunity to regain his or her composure and self-control in an alternative setting.

Such practices may include, but are not limited to: (1) short-term "time out" in a classroom or in a supervised area for the remainder of the class time; (2) sending a student into the hallway briefly; or (3) sending a student to a school counselor or other District staff member for counseling. Time-honored classroom management techniques such as these do not constitute disciplinary removals for purposes of this Code.

On occasion, a student's behavior may become disruptive. For purposes of this Code of Conduct, a disruptive student is a student who is substantially disruptive of the educational process or substantially interferes with the teacher's authority over the classroom. A substantial disruption of the educational process or substantial interference with a teacher's authority occurs when a student demonstrates a chronic unwillingness to comply with the teacher's instructions or repeatedly violates the teacher's classroom behavior rules.

A classroom teacher may remove a disruptive student from class for up to two days. The removal from class applies to the class of the removing teacher only.

*The procedural requirements for a formal removal by a teacher of a student are:*

- A. If the disruptive student does not pose a danger or ongoing threat of disruption to the academic process, the teacher must provide the student with an explanation for why he or she is being removed and an opportunity to explain his or her version of the relevant events before the student is removed. Only after the informal discussion may a teacher remove a student from class.
- B. If the student poses a danger or ongoing threat of disruption, the teacher may order the student to be removed immediately. The teacher must, however, explain to the student why he or she was removed from the classroom and give the student a chance to present his or her version of the relevant events within 1 school day.
- C. The teacher must complete a District-established disciplinary removal form and meet with the Principal or his or her designee as soon as possible, but no later than the end of the school day, to explain the circumstances of the removal and to present the removal form. The teacher must document their request for removal on the referral and must phone contact the parent within 1 school day. Written notice will include due process rights.
- D. If the Principal or designee is not available by the end of the same school day, the teacher must meet with the Principal or designee prior to the beginning of classes on the next school day.
- E. Within 1 school day after the student's removal, the Principal or another District administrator designated by the Principal must notify the student's parents, in writing, that the student has been removed from class and why. The notice must also inform the parent that he or she has the right, upon request, to meet informally with the Principal or the Principal's designee to discuss the reasons for the removal.
- F. The written notice must be provided by some means that is reasonably calculated to assure receipt of the notice within 1 school day of the student's removal at the last known address for the parents. Where possible, notice should also be provided by telephone if the school has been provided with a telephone number(s) for the purpose of contacting parents.
- G. The Principal may require the teacher who ordered the removal to attend the informal conference.
- H. If at the informal meeting the student denies the charges, the Principal or the Principal's designee must explain why the student was removed and give the student and the student's parents a chance to present the student's version of the relevant events. The informal meeting must be held within 2 school days of the student's removal. The timing of the informal meeting may be extended by mutual agreement of the parent and Principal.
- I. The Principal or the Principal's designee may overturn the removal of the student from class if the Principal finds any one of the following:
  - The charges against the student are not supported by substantial evidence.
  - The student's removal is otherwise in violation of law, including the District's Code of Conduct.

- The conduct warrants suspension from school pursuant to Education Law §3214 and a suspension will be imposed.
- J. Removal of a student with a disability, under certain circumstances, may constitute a change in the student's placement. Accordingly, no teacher may remove a student with a disability from his or her class until he or she has verified with the Principal or the chairperson of the Committee on Special Education that the removal will not violate the student's rights under state or federal law or regulation.

#### 7. Suspension from School

Suspension from school is a severe penalty which may be imposed only upon students who are insubordinate, disorderly, violent, or disruptive, or whose conduct otherwise endangers the safety, morals, health, or welfare of others.

The board retains its authority to suspend students, but places primary responsibility for the suspension of students with the Superintendent and the building Principals.

Any staff member may recommend to the Superintendent or the Principal that a student be suspended. All staff members must immediately report and refer a violent student to the Principal or the Superintendent for a violation of the Code of Conduct. All recommendations and referrals shall be made in writing unless the conditions underlying the recommendation or referral warrant immediate attention. In such cases a written report is to be prepared as soon as possible by the staff member recommending the suspension.

The Superintendent or Principal, upon receiving a recommendation or referral for suspension or when processing a case for suspension, shall gather the facts relevant to the matter and record them for subsequent presentation, if necessary.

##### ***A. Short-term (5 days or less) Suspension from School***

When the Superintendent or Principal (referred to as the "suspending authority") proposes to suspend a student charged with misconduct for five days or less pursuant to Education Law §3214(3), the suspending authority must immediately notify the student orally. If the student denies the misconduct, the suspending authority must provide an explanation of the basis for the proposed suspension. The suspending authority must also notify the student's parents in writing that the student may be suspended from school. The written notice must be provided by personal delivery, express mail delivery, or some other means that is reasonably calculated to assure receipt of the notice within 1 school day of the decision to propose suspension at the last known address for the parents. Where possible, notice should also be provided by telephone if the school has been provided with a telephone number(s) for the purpose of contacting the parents.

The notice shall provide a description of the charges against the student and the incident for which suspension is proposed and shall inform the parents of the right to request an immediate informal conference with the Principal. Both the notice and informal conference shall be in the dominant language or mode of communication used by the parents. At the conference, the parents shall be permitted to ask questions of complaining witnesses under such procedures as the Principal may establish.

The notice and opportunity for an informal conference shall take place before the student is suspended unless the student's presence in school poses a continuing danger to persons or property or an ongoing threat of disruption to the academic process. If the student's presence does pose such a danger or threat of disruption, the notice and opportunity for an informal conference shall take place as soon after the suspension as is reasonably practicable.

After the conference, the Principal shall promptly advise the parents in writing of his or her decision. The Principal shall advise the parents that if they are not satisfied with the decision and wish to pursue the matter, they must file a written appeal to the Superintendent within five business days, unless they can show extraordinary circumstances precluding them from doing so. The Superintendent shall issue a written decision regarding the appeal within 10 business days of receiving the appeal. If the parents are not satisfied with the Superintendent's decision, they must file a written appeal to the Board of Education with the District Clerk within 10 business days of the date of the Superintendents' decision, unless they can show extraordinary circumstances precluding them from doing so. Only final decisions of the Board may be appealed to the Commissioner within 30 days of the decision.

***B. Long-term (more than 5 days) Suspension from School***

When the Superintendent or building Principal determines that a suspension for more than five days may be warranted, he or she shall give reasonable notice to the student and the student's parents of their right to a fair hearing. At the hearing the student shall have the right to be represented by counsel, the right to question witnesses against him or her, and the right to present witnesses and other evidence on his or her behalf.

The Superintendent shall personally hear and determine the proceedings or may, in his or her discretion, designate a hearing officer to conduct the hearing. The hearing officer shall be authorized to administer oaths and issue subpoenas in conjunction with the proceeding before him or her. A record of the hearing shall be maintained, but no stenographic transcript shall be required. A tape recording shall be deemed a satisfactory record. The hearing officer shall make findings of fact and recommendations as to the appropriate measure of discipline to the Superintendent. The report of the hearing officer shall be advisory only, and the Superintendent may accept all or any part thereof.

An appeal of the decision of the Superintendent may be made to the Board that will make its decision based solely upon the record before it. All appeals to the Board must be in writing and submitted to the District Clerk within 10 business days of the date of the Superintendent's decision, unless the parents can show that extraordinary circumstances precluded them from doing so. The Board may adopt in whole or in part the decision of the Superintendent. Final decisions of the board may be appealed to the Commissioner within 30 days of the decision.

***C. Permanent Suspension***

Permanent suspension is reserved for extraordinary circumstances such as where a student's conduct poses a life-threatening danger to the safety and well-being of other students, school personnel, or any other person lawfully on school property or attending a school function.

**Minimum Periods of Suspension**

Students who bring a firearm to school

A student found guilty of bringing a firearm, as defined by Guns-Free School Act, onto school property will be subject to suspension from school for at least one calendar year. Before being suspended, the student will have an opportunity for a hearing pursuant to Education Law Section 3214. The Superintendent has the authority to modify the one-year suspension on a case-by-case basis. In deciding whether to modify the penalty, the Superintendent may consider the following:

1. The student's age.
2. The student's grade in school.
3. The student's prior disciplinary record.
4. The Superintendent's belief that other forms of discipline may be more effective.
5. Input from parents, teachers, and/or others.
6. Other extenuating circumstances.

A student with a disability may be suspended only in accordance with the requirements of state and federal law.

2. Students who commit violent acts other than bringing a weapon to school

Any student, other than a student with a disability, who is found to have committed a violent act, other than bringing a weapon onto school property, shall be subject to suspension from school for at least five days. If the proposed penalty is the minimum five-day suspension, the student and the student's parents will be given the same notice and opportunity for an informal conference given to all students subject to a short-term suspension. If the proposed penalty exceeds the minimum five-day suspension, the student and the student's parents will be given the same notice and opportunity for a hearing given to all students subject to a long-term suspension. The Superintendent has the authority to modify the minimum five-day suspension on a case-by-case basis. In deciding whether to modify the penalty, the Superintendent may consider the same factors considered in modifying a one-year suspension for possessing a weapon.

3. Students who are repeatedly substantially disruptive of the educational process or repeatedly substantially interferes with the teacher's authority over the classroom

Any student, other than a student with a disability, who repeatedly is substantially disruptive of the educational process or substantially interferes with the teacher's authority over the classroom will be suspended from school for at least three days. For purposes of this Code of Conduct, "repeatedly is substantially disruptive" means engaging in conduct that results in the student being removed from the classroom by teacher(s) pursuant to Education Law §3214(3-a) and this Code on four or more occasions during a semester, or three or more occasions during a trimester. If the proposed penalty is the minimum three-day suspension, the student and the student's parent will be given the same notice and opportunity for an informal conference given to all students subject to a short-term suspension. If the proposed penalty exceeds the minimum five-day suspension, the student and the student's parent will be given the same notice and opportunity for a hearing given to all students subject to a long-term suspension. The Superintendent has the authority to modify the minimum three-day suspension on a case-by-case basis. In deciding whether to modify the penalty, the Superintendent may consider the same factors considered in modifying a one-year suspension for possessing a weapon.

## **D. Referrals**

### **1. Counseling**

The Guidance Office shall handle all referrals of students to counseling.

### **2. PINS Petitions**

The District may file a PINS (Person In Need of Supervision) petition in Family Court on any student under the age of 18 who demonstrates that he or she requires supervision and treatment by:

- a. Being habitually truant and not attending school as required by part one of Article 65 of the Education Law.
- b. Engaging in an ongoing or continual course of conduct which makes the student ungovernable or habitually disobedient, and beyond the lawful control of the school.
- c. Knowingly and unlawfully possessing marijuana in violation of Penal Law § 221.05. A single violation of § 221.05 will be a sufficient basis for filing a PINS petition.

### **3. Juvenile Delinquents and Juvenile Offenders**

The Superintendent is required to refer the following students to the County Attorney for a juvenile delinquency proceeding before the Family Court:

- a. Any student under the age of 16 who is found to have brought a weapon to school, or
- b. Any student 14 or 15 years old who qualifies for juvenile offender status under the Criminal Procedure Law §1.20 (42).

The Superintendent is required to refer students age 16 and older or any student 14 or 15 years old who qualifies for juvenile offender status to the appropriate law enforcement authorities.

## **IX. Alternative Instruction**

When a student of any age is removed from class by a teacher for more than one period or a student of compulsory attendance age is suspended from school pursuant to Education Law §3214, the District will take immediate steps to provide alternative means of instruction for the student.

## **X. Discipline of Students with Disabilities**

The Board recognizes that it may be necessary to suspend, remove, or otherwise discipline students with disabilities to address disruptive or problem behavior. The Board also recognizes that students with disabilities enjoy certain procedural protections whenever school authorities intend to impose discipline upon them. The Board is committed to ensuring that the procedures followed for suspending, removing, or otherwise disciplining students with disabilities are consistent with the procedural safeguards required by applicable laws and regulations.

This Code of Conduct affords students with disabilities subject to disciplinary action no greater or lesser rights than those expressly afforded by applicable federal and state law and regulations.

## **A. Authorized Suspensions or Removals of Students with Disabilities**

1. For purposes of this section of the Code of Conduct, the following definitions apply.

A “suspension” means a suspension pursuant to Education Law § 3214.

A “removal” means a removal for disciplinary reasons from the student’s current educational placement other than a suspension and change in placement to an interim alternative educational setting (IAES) ordered by an impartial hearing officer because the student poses a risk of harm to himself or herself or others.

An “IAES” means a temporary educational placement for a period of up to 45 days, other than the student’s current placement at the time the behavior precipitating the IAES placement occurred, that enables the student to continue to progress in the general curriculum, although in another setting, to continue to receive those services and modifications, including those described on the student’s current individualized education program (IEP), that will enable the student to meet the goals set out in such IEP, and include services and modifications to address the behavior which precipitated the IAES placement that are designed to prevent the behavior from recurring.

2. School personnel may order the suspension or removal of a student with a disability from his or her current educational placement as follows:
  - a. The Board, the District (BOCES) Superintendent of schools or a building Principal may order the placement of a student with a disability into an IAES, another setting, or suspension for a period not to exceed five consecutive school days and not to exceed the amount of time a non-disabled student would be subject to suspension for the same behavior.
  - b. The Superintendent may order the placement of a student with a disability into an IAES, another setting or suspension for up to 10 consecutive school days, inclusive of any period in which the student has been suspended or removed under subparagraph (a) above for the same behavior, if the Superintendent determines that the student has engaged in behavior that warrants a suspension and the suspension or removal does not exceed the amount of time non-disabled students would be subject to suspension for the same behavior.
  - c. The Superintendent may order additional suspensions of not more than 10 consecutive school days in the same school year for separate incidents of misconduct, as long as those removals do not constitute a change of placement.
  - d. The Superintendent may order the placement of a student with a disability in an IAES to be determined by the Committee on Special Education (CSE), for the same amount of time that a student without a disability would be subject to discipline, but not more than 45 days, if the student carries or possesses a weapon to school or to a school function, or the student knowingly possesses or uses illegal drugs or sells or solicits the sale of a controlled substance while at school or a school function.

(1) “Weapon” means the same as “dangerous weapon” under 18 U.S.C. § 930(g)(w) which includes “a weapon, device, instrument, material or substance, animate or

inanimate, that is used for, or is readily capable of causing death or serious bodily injury, except...[for] a pocket knife with a blade of less than 2 1/2 inches in length.”

(2) “Controlled substance” means a drug or other substance identified in certain provisions of the federal Controlled Substances Act specified in both federal and state law and regulations applicable to this policy.

(3) “Illegal drugs” means a controlled substance except for those legally possessed or used under the supervision of a licensed health-care professional or that is legally possessed or used under any other authority under the Controlled Substances Act or any other federal law.

3. Subject to specified conditions required by both federal and state law and regulations, an impartial hearing officer may order the placement of a student with a disability in an IAES setting for up to 45 days at a time, if maintaining the student in his or her current educational placement poses a risk of harm to the student or others.

#### **B. Change of Placement Rule**

1. A disciplinary change in placement means a suspension or removal from a student’s current educational placement that is either:
  - a. for more than 10 consecutive school days; or
  - b. for a period of 10 consecutive school days or less if the student is subjected to a series of suspensions or removals that constitute a pattern because they cumulate to more than 10 school days in a school year and because of such factors as the length of each suspension or removal, the total amount of time the student is removed and the proximity of the suspensions or removals to one another.
2. School personnel may not suspend or remove a student with disabilities if imposition of the suspension or removal would result in a disciplinary change in placement based on a pattern of suspension or removal.

However, the District may impose a suspension or removal, which would otherwise result in a disciplinary change in placement, based on a pattern of suspensions or removals if the CSE has determined that the behavior was not a manifestation of the student’s disability, or the student is placed in an IAES for behavior involving weapons, illegal drugs or controlled substances.

#### **C. Special Rules Regarding the Suspension or Removal of Students with Disabilities**

1. The District’s Committee on Special Education shall:
  - a. Conduct functional behavioral assessments to determine why a student engages in a particular behavior, and develop or review behavioral intervention plans whenever the District is first suspending or removing a student with a disability for more than 10 school days in a school year or imposing a suspension or removal that constitutes a disciplinary change in placement, including a change in placement to an IAES for misconduct involving weapons, illegal drugs or controlled substances.

If subsequently, a student with a disability who has a behavioral intervention plan and who has been suspended or removed from his or her current educational placement for more than 10 school days in a school year is subjected to a suspension or removal that does not constitute a disciplinary change in placement, the members of the CSE shall review the behavioral intervention plan and its implementation to determine if modifications are necessary.

If one or more members of the CSE believe that modifications are needed, the school District shall convene a meeting of the CSE to modify such plan and its implementation, to the extent the committee determines necessary.

- b. Conduct a manifestation determination review of the relationship between the student's disability and the behavior subject to disciplinary action whenever a decision is made to place a student in an IAES either for misconduct involving weapons, illegal drugs, or controlled substances or because maintaining the student in his current educational setting poses a risk of harm to the student or others; or a decision is made to impose a suspension that constitutes a disciplinary change in placement.
2. The parents of a student who is facing disciplinary action, but who has not been determined to be eligible for services under IDEA and Article 89 at the time of misconduct, shall have the right to invoke applicable procedural safeguards set forth in federal and state law and regulations if, in accordance with federal and state statutory and regulatory criteria, the school District is deemed to have had knowledge that their child was a student with a disability before the behavior precipitating disciplinary action occurred. If the District is deemed to have had such knowledge, the student will be considered a student presumed to have a disability for discipline purposes.
    - a. The Superintendent, building Principal or other school official imposing a suspension or removal shall be responsible for determining whether the student is a student presumed to have a disability.
    - b. A student will not be considered a student presumed to have a disability for discipline purposes if, upon receipt of information supporting a claim that the District had knowledge the student was a student with a disability, the District either:
      - (1) conducted an individual evaluation and determined that the student is not a student with a disability, or
      - (2) determined that an evaluation was not necessary and provided notice to the parents of such determination, in the manner required by applicable law and regulations.

If there is no basis for knowledge that the student is a student with a disability prior to taking disciplinary measures against the student, the student may be subjected to the same disciplinary measures as any other non-disabled student who engaged in comparable behaviors.

However, if a request for an individual evaluation is made while such non-disabled student is subjected to a disciplinary removal, an expedited evaluation shall be conducted and completed in the manner prescribed by applicable federal and state law and regulations. Until the expedited evaluation is completed, the non-disabled student who is not a student presumed to have a

disability for discipline purposes shall remain in the educational placement determined by the District, which can include suspension.

3. The District shall provide parents with notice of disciplinary removal no later than the date on which a decision is made to change the placement of a student with a disability to an IAES for either misconduct involving weapons, illegal drugs or controlled substances or because maintaining the student in his/her current educational setting poses a risk of harm to the student or others; or a decision is made to impose a suspension or removal that constitutes a disciplinary change in placement.

The procedural safeguards notice prescribed by the Commissioner shall accompany the notice of disciplinary removal.

4. The parents of a student with disabilities subject to a suspension of five consecutive school days or less shall be provided with the same opportunity for an informal conference available to parents of non-disabled students under the Education Law.
5. Superintendent hearings on disciplinary charges against students with disabilities subject to a suspension of more than five school days shall be bifurcated into a guilt phase and a penalty phase in accordance with the procedures set forth in the Commissioner's regulations incorporated into this Code.
6. The removal of a student with disabilities other than a suspension or placement in an IAES shall be conducted in accordance with the due process procedures applicable to such removals of non-disabled students, except that school personnel may not impose such removal for more than 10 consecutive days or for a period that would result in a disciplinary change in placement, unless the CSE has determined that the behavior is not a manifestation of the student's disability.
7. During any period of suspension or removal, including placement in an IAES, students with disabilities shall be provided services as required by the Commissioner's regulations incorporated into this Code.

#### **D. Expedited Due Process Hearings**

1. An expedited due process hearing shall be conducted in the manner specified by the Commissioner's regulations incorporated into this Code, if:
  - a. The District requests such a hearing to obtain an order of an impartial hearing officer placing a student with a disability in an IAES where school personnel maintain that it is dangerous for the student to be in his or her current educational placement, or during the pendency of due process hearings where school personnel maintain that it is dangerous for the student to be in his or her current educational placement during such proceedings.
  - b. The parent requests such a hearing from a determination that the student's behavior was not a manifestation of the student's disability, or relating to any decision regarding placement, including but not limited to any decision to place the student in an IAES

- (1) During the pendency of an expedited due process hearing or appeal regarding the placement of a student in an IAES for behavior involving weapons, illegal drugs or controlled substances, or on grounds of dangerousness, or regarding a determination that the behavior is not a manifestation of the student's disability for a student who has been placed in an IAES, the student shall remain in the IAES pending the decision of the impartial hearing officer or until expiration of the IAES placement, whichever occurs first, unless the parents and the District agree otherwise.
  - (2) If school personnel propose to change the student's placement after expiration of an IAES placement, during the pendency of any proceeding to challenge the proposed change in placement, the student shall remain in the placement prior to removal to the IAES, except where the student is again placed in an IAES.
2. An expedited due process hearing shall be completed within 15 business days of receipt of the request for a hearing. Although the impartial hearing officer may grant specific extensions of such time period, he or she must mail a written decision to the District and the parents within five business days after the last hearing date, and in no event later than 45 calendar days after receipt of the request for a hearing, without exceptions or extensions.

**E. Referral to law enforcement and judicial authorities**

In accordance with the provisions of IDEA and its implementing regulations:

1. The District may report a crime committed by a child with a disability to appropriate authorities, and such action will not constitute a change of the student's placement.
2. The Superintendent shall ensure that copies of the special education and disciplinary records of a student with disabilities are transmitted for consideration to the appropriate authorities to whom a crime is reported.

## **XI. PHYSICAL FORCE/PHYSICAL RESTRAINT**

Corporal punishment is any act of physical force upon a student for the purpose of punishing that student. Corporal punishment of any student by any District employee is strictly forbidden.

However, in situations where alternative procedures and methods that do not involve the use of physical force cannot reasonably be used, reasonable physical force may be used to:

1. Protect oneself, another student, teacher or any person from physical injury.
2. Protect the property of the District or others.
3. Restrain or remove a student whose behavior interferes with the orderly exercise and performance of school District functions, powers and duties, if that student has refused to refrain from further disruptive acts.

The District will file all complaints about the use of corporal punishment with the Commissioner of Education in accordance with Commissioner's regulations.

## **STUDENT SEARCHES AND QUESTIONING OF STUDENTS**

The Board of Education is committed to ensuring an atmosphere on school property and at school functions that is safe and orderly. To achieve this kind of environment, any school official authorized to impose a disciplinary penalty on a student may question a student about an alleged violation of law or the District Code of Conduct. Students are not entitled to any sort of “Miranda”-type warning before being questioned by school officials, nor are school officials required to contact a student’s parent before questioning the student. However, school officials will tell all students why they are being questioned.

In addition, the Board authorizes the Superintendent, building Principals, the school nurse and District security officials to conduct searches of students and their belongings if the authorized school official has reasonable suspicion to believe that the search will result in evidence that the student violated the law or the District Code of Conduct. Whenever possible, searches will be conducted by a staff member of the same sex as the student and another staff member will be present as a witness.

An authorized school official may conduct a search of a student’s belongings that is minimally intrusive, such as touching the outside of a book bag, without reasonable suspicion, so long as the school official has a legitimate reason for the very limited search.

An authorized school official may search a student or the student’s belongings based upon information received from a reliable information. District employees will be considered reliable informants unless they are known to have previously supplied information that they knew was not accurate.

Before searching a student or the student’s belongings, the authorized school official should attempt to get the student to admit that he or she possesses physical evidence that they violated the law or the District Code, or get the student to voluntarily consent to the search. Searches will be limited to the extent necessary to locate the evidence sought.

Whenever practicable, searches will be conducted in the privacy of administrative offices and students will be present when their possessions are being searched.

### **Student Lockers, Desks, and other School Storage Places**

The rules in this Code of Conduct regarding searches of students and their belongings do not apply to student lockers, desks, and other school storage places. Students have no reasonable expectation of privacy with respect to these places and school officials retain complete control over them. This means that student lockers, desks, and other school storage places may be subject to search at any time by school officials, without prior notice to students, and without their consent.

## **Other Searches**

More intrusive searches may occur by authorized personnel in accordance with Board policy and law.

The building Principal or the Principal's designee shall be responsible for the custody, control, and disposition of any illegal or dangerous item taken from a student. The Principal or his or her designee shall clearly label each item taken from the student and retain control of the item(s), until the items is turned over to the police. The Principal or his or her designee shall be responsible for personally delivering dangerous or illegal items to police authorities.

## **Police Involvement in Searches and Questioning of Students**

District officials are committed to cooperating with police officials and other law enforcement authorities to maintain a safe school environment. Police officials, however, have limited authority to interview or search students in schools or at school functions, or to use school facilities in connection with police work. Police officials may enter school property or a school function to question or search a student or to conduct a formal investigation involving students only if they have:

1. A search or an arrest warrant; or
2. Probable cause to believe a crime has been committed on school property or at a school function; or
3. Been invited by school officials.

Before police officials are permitted to question or search any student, the building Principal or his or her designee shall first try to notify the student's parent to give the parent the opportunity to be present during the police questioning or search. If the student's parent cannot be contacted prior to the police questioning or search, the questioning or search shall not be conducted. The Principal or designee will also be present during any police questioning or search of a student on school property or at a school function.

Students who are questioned by police officials on school property or at a school function will be afforded the same rights they have outside the school. This means:

1. They must be informed of their legal rights.
2. They may remain silent if they so desire.
3. They may request the presence of an attorney.

## **Child Protective Services Investigations**

Consistent with the District's commitment to keep students safe from harm and the obligation of school officials to report to Child Protective Services when they have reasonable cause to suspect that a student has been abused or maltreated, the District will cooperate with local Child Protective Services workers who wish to conduct interviews of students on school property relating to allegations of suspected child abuse, and/or neglect, or custody investigations.

All requests by Child Protective Services to interview a student on school property shall be made directly to building Principal or his or her designee. The Principal or his or her designee shall set the time and place of the interview. The Principal or designee shall decide if it is necessary and appropriate for a school official to be present during the interview, depending on the age of the student being interviewed and the nature of the allegations. If the nature of the allegations is such that it may be necessary for the student to remove any of his or her clothing in order for the child protective services worker to verify the allegations, the school nurse or other District medical personnel must be present during that portion of the interview. No student shall be required to remove his or her clothing in front of a Child Protective Services worker or school District official of the opposite sex.

A Child Protective Services worker may not remove a student from school property without a court order, unless the worker reasonably believes that the student would be subject to danger of abuse if he or she were not removed from school before a court order can reasonably be obtained. If the worker believes the student would be subject to danger of abuse, the worker may remove the student without a court order and without the parent's consent.

## **XII. Visitors to the Schools**

The Board encourages parents and other District citizens to visit the District's schools and classrooms to observe the work of students, teachers and other staff. Since schools are a place of work and learning, however, certain limits must be set for such visits. The building Principal or his or her designee is responsible for all persons in the building and on the grounds. For these reasons, the following rules apply to visitors to the schools:

1. Anyone who is not a regular staff member or student of the school will be considered a visitor.
2. All visitors to the school must report to the office of the Principal upon arrival at the school. There they will be required to sign the visitor's register and will be issued a visitor's identification badge, which must be worn at all times while in the school or on school grounds. The visitor must return the identification badge to the Principal's office before leaving the building.
3. Visitors attending school functions that are open to the public, such as parent-teacher organization meetings or public gatherings, are not required to register.
4. Parents or citizens who wish to observe a classroom while school is in session are required to arrange such visits in advance with the classroom teacher(s), so that class disruption is kept to a minimum.
5. Teachers are expected not to take class time to discuss individual matters with visitors.
6. Any unauthorized person on school property will be reported to the Principal or his or her designee. Unauthorized persons will be asked to leave. The police may be called if the situation warrants.
7. All visitors are expected to abide by the rules for public conduct on school property contained in this Code of Conduct.

## **XIII. Public Conduct on School Property**

The District shall initiate disciplinary action against any student or staff member, as appropriate, with the “Penalties” section above. In addition, the District reserves its right to pursue a civil or criminal legal action against any person violating the Code.

# **XIV. Dissemination and Review**

## **A. Dissemination of Code of Conduct**

The Board will work to ensure that the community is aware of this Code of Conduct by:

1. Mailing a summary of the Code of Conduct written in plain language to all parents of District students before the beginning of the school year and making this summary available later upon request.
2. Providing copies of a summary of the Code to all students at a general assembly held at the beginning of each school year.

The Code of Conduct and any amendments to it will be filed with the Commissioner no later than 30 days after adoption.

***Wayland-Cohocton  
Central School District  
Code of Conduct COVID-19 Addendum***

2020-2021

In order to comply with the New York State Education Department (NYSED) and Center for Disease Control (CDC) guidelines students will be expected to wear masks and maintain social distancing while on school property. The district has provided those protocols in addition to other Health and Safety procedures outlined in our WCCS Reopening Plan which can be found on the District website at the following web link: [Full Code of Conduct](#)

The district will work with students and families to enforce these new expectations with care, understanding, and safety at the forefront of all decisions. Safety education will be a priority focus surrounding all of these new changes. Wearing a mask and maintaining appropriate social distance are a shared responsibility for all of us and we will enforce the need to follow them consistently throughout the school year. Here are a few things to consider in regards to wearing masks and maintaining social distance:

- Masks and social distancing are scientifically proven to reduce the spread of the virus
- Regardless of your beliefs, it is the Governor's orders. As a public school we are required to follow those rules.
- School is supposed to be a safe place for everyone. Wearing masks reassures those who are frightened and can make school feel like a safer place. It's important for all people to feel safe, all the time.
- While it is okay to wear masks with designs they must follow the same guidelines indicated in Section V of the Code of Conduct to assure they are appropriate and don't distract others within the learning environment.
- If all students maintain safety protocols, there is more chance we can remain open if there is a positive case.

The district will use a progressive discipline model focussed on restorative practices. The first step will be identifying the reason the student has chosen to not follow safety guidelines. The following questions will be utilized to help the student process through their decision and reinforce how it impacts them and the people around them. The process, if appropriate, will be:

- Respectfully ask the student to put the mask on.
- If he/she refuses, ask to speak with him/her privately (in a place where you can socially distance)

- Staff will then utilize the following restorative questions:
  1. What happened to make you take your mask off?
  2. What was going on for you to make you take off your mask?
  3. What are you thinking/feeling about it right now?
  4. Who is impacted by your choices to not wear a mask?
  5. What needs to happen to make this right again?

With the high level of safety concern we will have this conversation with the expectation that the student will follow the established protocols from that point forward. Any additional violations of the safety protocols will result in any or all of the following:

- Removal from class and having a parent/guardian take them home for the remainder of the day.
- Suspension from school with a mandatory parent/student reentry meeting prior to the student returning to school
- Removal from the hybrid model to fully remote instruction

Progressive discipline will be utilized whenever appropriate, however, our primary focus has to be the health, safety and well being of everyone on campus. We look forward to having everyone return to school and working together to create a safe and caring learning environment.
