

## Request for Dropping Band

Student Name: \_\_\_\_\_ Date: \_\_\_\_\_

Often parents and students have made a significant investment into instruments and/or lessons throughout the years for band. It is imperative that students and parents are thinking the same when it comes to dropping out of band. This form is to insure that students and parents have discussed the decision together and that the instructor is aware of the student dropping band. Students will not be dropped from band until this form is completed and signed by all three parties and returned to the principal's office. At this point the principal and the student will discuss plans for fulfilling fine arts credits if needed.

By signing below each party acknowledges that they have discussed the decision to drop band and are aware of the student doing so for the next term of school.
