## 2021-2022 School Accountability Report Card

(Published During the 2022-2023 School Year)

### General Information about the School Accountability Report Card (SARC)

#### SARC Overview

By February 1 of each year, every school in California is required by state law to publish a School Accountability Report Card (SARC). The SARC contains information about the condition and performance of each California public school. Under the Local Control Funding Formula (LCFF) all local educational agencies (LEAs) are required to prepare a Local Control and Accountability Plan (LCAP), which describes how they intend to meet annual school-specific goals for all pupils, with specific activities to address state and local priorities. Additionally, data reported in an LCAP is to be consistent with data reported in the SARC.

For more information about SARC requirements and access to prior year reports, see the California Department of Education (CDE) SARC web page at <https://www.cde.ca.gov/ta/ac/sa/>

For more information about the LCFF or the LCAP, see the CDE LCFF web page at <https://www.cde.ca.gov/fg/aa/lc/>

For additional information about the school, parents/guardians and community members should contact the school principal or the district office.

#### DataQuest

DataQuest is an online data tool located on the CDE DataQuest web page at <https://dq.cde.ca.gov/dataquest/> that contains additional information about this school and comparisons of the school to the district and the county. Specifically, DataQuest is a dynamic system that provides reports for accountability (e.g., test data, enrollment, high school graduates, dropouts, course enrollments, staffing, and data regarding English learners).

#### California School Dashboard

The California School Dashboard (Dashboard) <https://www.caschooldashboard.org/> reflects California's new accountability and continuous improvement system and provides information about how LEAs and schools are meeting the needs of California's diverse student population. The Dashboard contains reports that display the performance of LEAs, schools, and student groups on a set of state and local measures to assist in identifying strengths, challenges, and areas in need of improvement.

#### Internet Access

Internet access is available at public libraries and other locations that are publicly accessible (e.g., the California State Library). Access to the Internet at libraries and public locations is generally provided on a first-come, first-served basis. Other use restrictions may include the hours of operation, the length of time that a workstation may be used (depending on availability), the types of software programs available on a workstation, and the ability to print documents.

## 2022-23 School Overview

Waterford High School (WHS) is a small and well known high school in the the Central Valley for consistent gains in student achievement. In fact, WHS had the highest four-year growth in academic performance of any comprehensive high school in California. In 2007, WHS was named a California Distinguished School. The students at WHS received the Title I Academic Achievement Award presented at the state Title I conference in May 2006 and 2007. WHS was the first high school in the region to reach and surpass the state target of 800 (2008). In the 2016-2017 school year, Waterford High School received the Gold Ribbon Award and Title I Academic Achievement Award. These awards are some of the most prestigious award school can earn in the state. WHS offers a diverse catalog of courses which includes CTE, AP, credit recovery and Dual Enrollment options. We have a flourishing arts program and a wide array of athletic and extracurricular opportunities for our students to engage in. We continue to strive for sustaining academic growth over time and mitigate any learning loss by our students as the result of the COVID shut-down. Our mission to engage, empower, and encourage students in a comprehensive education using creative instruction and challenging curriculum requires each person (teacher, student, parent, and administrator) to strive daily to do their best. Thank you for taking time to review our School Accountability Report Card. We hope the information in this report will give you a better understanding of our educational program and the level of student achievement at our school. The faculty and staff at Waterford High School believe that all of our students can succeed in school. Each year teachers receive training to improve their teaching techniques, and, as a result, we have seen improvements in the academic performance of our students. High school should be a time of academic skill development, social maturation, and preparation for adult life. Our goal is to provide a quality educational program for all students. A rich and rewarding four-year experience is available here at Waterford High School; we want every student to make the most of this opportunity.

## A. Conditions of Learning **State Priority: Basic**

The SARC provides the following information relevant to the State priority: Basic (Priority 1):

- Degree to which teachers are appropriately assigned and fully credentialed in the subject area and for the pupils they are teaching;
- Pupils have access to standards-aligned instructional materials; and
- School facilities are maintained in good repair

2021-22 data was not included as part of the initial release of data on 1/13/23. The CDE has indicated that the data will be available after the 2/1/23 SARC deadline. The data will be populated when it is published by the CDE.

Note: The data in this table is based on Full Time Equivalent (FTE) status. One FTE equals one staff member working full time; one FTE could also represent two staff members who each work 50 percent of full time. Additionally, an assignment is defined as a position that an educator is assigned based on setting, subject, and grade level. An authorization is defined as the services that an educator is authorized to provide to students.

## 2022-23 Quality, Currency, Availability of Textbooks and Other Instructional Materials

The District continuously performs needs assessments for curriculum needs. At the end of May, the District collects information of student material needed for the upcoming year to ensure all instructional materials arrive on time for the next school year.

## School Facility Conditions and Planned Improvements

Our main building was constructed in August 2001, so it is still rather new and in very good condition. All school buildings have working heating and cooling systems. Our custodial staff cleans and maintains all of our facilities daily. Currently, there are no trailer-type portable classrooms at WHS. Our athletic facilities and fields are well-maintained and provide an opportunity for our students to compete in a wide variety of sports. A project to improve functionality at the school farm was completed in 2011–2012. Construction on a Pole Barn began in the summer of 2013 and was completed in the Fall of 2013. A new shop area was constructed in the summer of 2014. It includes a metal canopy with workstations and electrical connections for different types of welding and metalwork. Fencing was completed on 2017-18. A new greenhouse was constructed and completed in 2018. Two new classrooms were brought in to house the MS class and Special Education class this was completed in 2019. A portable classroom was rented in 2021 to house the Music program.

### State Priority: Pupil Achievement

The SARC provides the following information relevant to the State priority: Pupil Achievement (Priority 4):

#### Statewide Assessments

(i.e., California Assessment of Student Performance and Progress [CAASPP] System includes the Smarter Balanced Summative Assessments for students in the general education population and the California Alternate Assessments [CAAs] for English language arts/literacy [ELA] and mathematics given in grades three through eight and grade eleven. Only eligible students may participate in the administration of the CAAs. CAAs items are aligned with alternate achievement standards, which are linked with the Common Core State Standards [CCSS] for students with the most significant cognitive disabilities).

The CAASPP System encompasses the following assessments and student participation requirements:

1. **Smarter Balanced Summative Assessments and CAAs for ELA** in grades three through eight and grade eleven.
2. **Smarter Balanced Summative Assessments and CAAs for mathematics** in grades three through eight and grade eleven.
3. **California Science Test (CAST) and CAAs for Science** in grades five, eight, and once in high school (i.e., grade ten, eleven, or twelve).
4. **College and Career Ready**  
The percentage of students who have successfully completed courses that satisfy the requirements for entrance to the University of California and the California State University, or career technical education sequences or programs of study.

#### SARC Reporting in the 2020-2021 School Year Only

Where the most viable option, LEAs were required to administer the statewide summative assessment in ELA and mathematics. Where a statewide summative assessment was not the most viable option for the LEA (or for one or more grade-level[s] within the LEA) due to the pandemic, LEAs were allowed to report results from a different assessment that met the criteria established by the State Board of Education (SBE) on March 16, 2021. The assessments were required to be:

- Aligned with CA CCSS for ELA and mathematics;
- Available to students in grades 3 through 8, and grade 11; and
- Uniformly administered across a grade, grade span, school, or district to all eligible students.

#### Options

Note that the CAAs could only be administered in-person following health and safety requirements. If it was not viable for the LEA to administer the CAAs in person with health and safety guidelines in place, the LEA was directed to not administer the tests. There were no other assessment options available for the CAAs. Schools administered the Smarter Balanced Summative Assessments for ELA and mathematics, other assessments that meet the SBE criteria, or a combination of both, and they could only choose one of the following:

- Smarter Balanced ELA and mathematics summative assessments;
- Other assessments meeting the SBE criteria; or
- Combination of Smarter Balanced ELA and mathematics summative assessments and other assessments.

The percentage of students who have successfully completed courses that satisfy the requirements for entrance to the University of California and the California State University, or career technical education sequences or programs of study.

## Percentage of Students Meeting or Exceeding the State Standard on CAASPP

This table displays CAASPP test results in ELA and mathematics for all students grades three through eight and grade eleven taking and completing a state-administered assessment.

The 2020-21 data cells have N/A values because these data are not comparable to other year data due to the COVID-19 pandemic during the 2020-21 school year. Where the CAASPP assessments in ELA and/or mathematics is not the most viable option, the LEAs were allowed to administer local assessments. Therefore, the 2020-21 data between school years for the school, district, state are not an accurate comparison. As such, it is inappropriate to compare results of the 2020-21 school year to other school years.

Percentages are not calculated when the number of students tested is ten or less, either because the number of students in this category is too small for statistical accuracy or to protect student privacy.

ELA and mathematics test results include the Smarter Balanced Summative Assessment and the CAA. The “Percent Met or Exceeded” is calculated by taking the total number of students who met or exceeded the standard on the Smarter Balanced Summative Assessment plus the total number of students who met the standard (i.e., achieved Level 3-Alternate) on the CAAs divided by the total number of students who participated in both assessments.

Subject	School 2020-21	School 2021-22	District 2020-21	District 2021-22	State 2020-21	State 2021-22
<b>English Language Arts/Literacy</b> (grades 3-8 and 11)	N/A	67	N/A	39	N/A	47
<b>Mathematics</b> (grades 3-8 and 11)	N/A	26	N/A	23	N/A	33

## 2021-22 CAASPP Test Results in ELA by Student Group

This table displays CAASPP test results in ELA by student group for students grades three through eight and grade eleven taking and completing a state-administered assessment.

ELA test results include the Smarter Balanced Summative Assessment and the CAA. The “Percent Met or Exceeded” is calculated by taking the total number of students who met or exceeded the standard on the Smarter Balanced Summative Assessment plus the total number of students who met the standard (i.e., achieved Level 3-Alternate) on the CAAs divided by the total number of students who participated in both assessments.

Double dashes (--) appear in the table when the number of students is ten or less, either because the number of students in this category is too small for statistical accuracy or to protect student privacy.

The number of students tested includes all students who participated in the test whether they received a score or not; however, the number of students tested is not the number that was used to calculate the achievement level percentages. The achievement level percentages are calculated using only students who received scores.

## 2021-22 CAASPP Test Results in Math by Student Group

This table displays CAASPP test results in Math by student group for students grades three through eight and grade eleven taking and completing a state-administered assessment.

Mathematics test results include the Smarter Balanced Summative Assessment and the CAA. The “Percent Met or Exceeded” is calculated by taking the total number of students who met or exceeded the standard on the Smarter Balanced Summative Assessment plus the total number of students who met the standard (i.e., achieved Level 3-Alternate) on the CAAs divided by the total number of students who participated in both assessments.

Double dashes (--) appear in the table when the number of students is ten or less, either because the number of students in this category is too small for statistical accuracy or to protect student privacy.

The number of students tested includes all students who participated in the test whether they received a score or not; however, the number of students tested is not the number that was used to calculate the achievement level percentages. The achievement level percentages are calculated using only students who received scores.

## 2021-22 Career Technical Education Programs

Students have the opportunity to complete a series of courses that meet the requirements for admission to a UC/CSU university. In addition, students have the opportunity to complete CTE pathways in Agricultural Science, Agricultural Mechanics, Child Development, and Business Technology.

## 2021-22 Career Technical Education (CTE) Participation

Measure	CTE Program Participation
Number of Pupils Participating in CTE	322
Percent of Pupils that Complete a CTE Program and Earn a High School Diploma	44.1
Percent of CTE Courses that are Sequenced or Articulated Between the School and Institutions of Postsecondary Education	

## Course Enrollment/Completion

This table displays the course enrollment/completion of University of California (UC) and/or California State University (CSU) admission requirements.

UC/CSU Course Measure	Percent
2021-22 Pupils Enrolled in Courses Required for UC/CSU Admission	99.52
2020-21 Graduates Who Completed All Courses Required for UC/CSU Admission	37.10

## B. Pupil Outcomes

### State Priority: Other Pupil Outcomes

The SARC provides the following information relevant to the State priority: Other Pupil Outcomes (Priority 8): Pupil outcomes in the subject area of physical education.

## 2021-22 California Physical Fitness Test Results

This table displays the percentage of students participating in each of the five fitness components of the California Physical Fitness Test Results. Due to changes to the 2021-22 PFT administration, only participation results are required for these five fitness areas. Percentages are not calculated and double dashes (--) appear in the table when the number of students tested is ten or less, either because the number of students in this category is too small for statistical accuracy or to protect student privacy.

## C. Engagement

### State Priority: Parental Involvement

The SARC provides the following information relevant to the State priority: Parental Involvement (Priority 3): Efforts the school district makes to seek parent input in making decisions regarding the school district and at each school site.

## 2022-23 Opportunities for Parental Involvement

We urge parents to become involved in our campus and school committees. Parents participate on our School Site Council, our English Language Advisory Committee, The Waterford Boosters Club, Waterford High School Ag Boosters, the Waterford Education Foundation, and the Waterford Agricultural Advisory. We also have an Education Foundation that provides local scholarships. The Waterford Agricultural Boosters was also developed in 2017-18, which has given a great boost to engage

parents in school activities. Parents may contact our office for more information on these organizations. This academic year, 2020-21, we have implemented parent-forums where parents can come and learn the new trends that students are learning. The forums are based on social media and the use of smokeless tobacco and vaping.

#### State Priority: School Climate

The SARC provides the following information relevant to the State priority: School Climate (Priority 6):

- Pupil suspension rates;
- Pupil expulsion rates; and
- Other local measures on the sense of safety

## Suspensions and Expulsions

This table displays suspensions and expulsions data collected between July through February, partial school year due to the COVID-19 pandemic. The 2019-20 suspensions and expulsions rate data are not comparable to other year data because the 2019-20 school year is a partial school year due to the COVID-19 crisis. As such, it would be inappropriate to make any comparisons in rates of suspensions and expulsions in the 2019-20 school year compared to other school years.

Subject	School 2019-20	District 2019-20	State 2019-20
<b>Suspensions</b>	5.51	2.27	2.45
<b>Expulsions</b>	0.00	0.05	0.05

This table displays suspensions and expulsions data collected between July through June, each full school year respectively. Data collected during the 2020-21 school year may not be comparable to earlier years of this collection due to differences in learning mode instruction in response to the COVID-19 pandemic.

## 2022-23 School Safety Plan

Our administration, director of operations, and campus resources staff monitor school grounds to ensure that our campus is safe. We supervise facilities from before school begins until after school ends. Teachers help with morning supervision. Waterford High School is a closed campus. Visitors must check in at the front office. Students are required to remain on campus all periods of the day and during the break and lunch periods. Students who have a work experience or Regional Occupational Program placement are permitted to leave campus. Sheriff Deputies provide added security at home football and basketball games. WHS has a School Safety Plan that addresses our school's specific safety needs. We maintain a closed campus and check facilities, grounds, and equipment regularly for any problems.

During the 2017-18 school year, the safety team determined the need to extend the metal fence in front of the school to secure all entrances directly from the front parking lot. The fence has now enclosed the campus all around and there are no open entries during school hours. All staff, students, and visitors are to check-in at the office as that is the only entry to school campus.

To support student social-emotional health as it can be impacted through the use of social media, the district has implemented an application that can be used on student devices and online, which is anonymous, but students can/may leave his/her name - the app is called STOPit. This application can also be used by students to report any bullying and/or concerns he/she may encounter at school or on the way to or from school. In efforts to maintain a safe campus, all schools are utilizing a check-in system that requires each visitor to have proper identification and declare the visitor's destination on campus. The system also checks all visitors for individuals who are on the online system for Megan's Law.

## Professional Development

Most of our onsite staff development focuses on teaching techniques as they relate to our instructional goals. The principal also refers teachers to content-specific workshops in the subjects they teach. One focus of staff development in 2019-20 was Student Interaction and TAPPLE training. We show our commitment to staff development by reviewing and practicing instructional strategies at each faculty meeting. We also conduct learning walks where teachers and administrators visit classrooms to observe instructional practices at work.

This table displays the number of school days dedicated to staff development and continuous improvement.
