RE: Annual Asbestos Management Plan Notice

This is to inform you of the status of the Midwest Central Community Unit School District #191 asbestos management plan.

As required, our building(s) were initially inspected for asbestos. Our inspection was conducted May 12, 1988.

The AHERA law requires that a visual surveillance of asbestos containing areas be completed every six months, and a re-inspection conducted every three years. These inspections have been completed and Midwest Central is in compliance with existing statutes pertaining to containment and removal.

The inspection/management plan is available for public review in the District administrative office.

Should you have any questions, please feel free to contact me.

Sincerely,

Todd Hellrigel, Ed.D.  
Superintendent
