Transportation

BUS RIDER PARENT INFORMATION

To find your child's bus route, there are two methods:

1. Download the Ride 360 App! (recommended)

- The app is free via [Google Play](https://play.google.com/store/apps/details?id=com.bixby.bpsride360) or [Apple Store](https://apps.apple.com/us/app/ride-360/id1444444444).
- Features include:
 - notifications of delay specific to your child's bus
 - routes and stops
 - real-time route updates

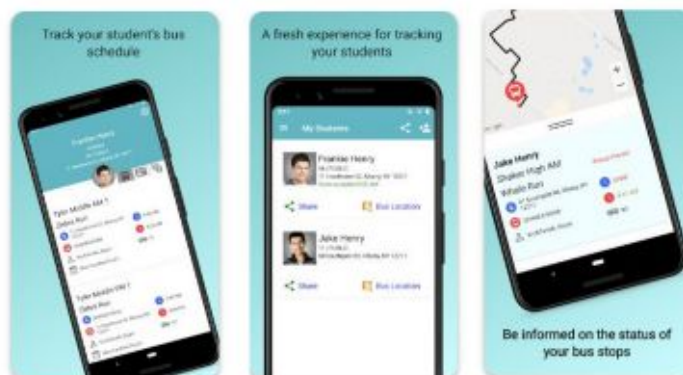

DOWNLOAD THE RIDE 360 APP:

iPhone:

Android:

2. Prefer not to have the app? Use the link.

- Visit bixbyps.info/bpsride360.
- This will allow you to look up your child's route only!
- This will NOT opt you into bus delay notifications or real-time route tracking. **the Ride 360 app is required for those features.**

Emergency notifications (major issues, wrecks, etc.) will come through our regular channels via text to ensure all families receive them regardless of having the app.

Standard Based Grading

GRADING SCALE: Traditional v. Standards-Based

As opposed to traditional grading scales, standards-based grading is based on a 3-point scale of mastery instead of a percentage of completion.

Traditional Grading Scale

| | |
|----------|---|
| 90%-100% | A |
| 80%-89% | B |
| 70%-79% | C |
| 60%-69% | D |
| <60% | F |

Standards-Based Grading Scale

| | |
|---|---|
| Exceeds Learning Target | 4 |
| Meets or is On Track to Meet Learning Target | 3 |
| Progressing Toward Mastery of Learning Target: Demonstrates partial understanding or can perform parts of target with assistance. | 2 |
| Area of Concern: Cannot demonstrate understanding, even with assistance. | 1 |

Culture of Innovation

REPORT CARD: PARENT GUIDE

4

3

2

1

WHAT DOES THE PROFICIENCY SCALE MEAN?

LEVEL 4: Exceeds standards/skills.

I have a deep understanding of this learning target, and I'm able to show mastery in complex ways. I may also extend this outcome to demonstrate enriched levels of mastery.

LEVEL 3: Meets or is on track to meet standards/skills. Level 3 is the goal for ALL standards.

I meet the expectations of the learning target, and I'm able to demonstrate mastery independently.

LEVEL 2: Progressing towards standards/skills.

I am showing progress, and although I might need some support, I am able to complete parts of the learning target independently.

LEVEL 1: Area of concern.

I need support in order to demonstrate progress toward mastery of the learning target.

Standards-based grading refers to an innovative grading practice focused on individual students' mastery of standards and skills. By measuring and analyzing progression toward skill mastery, students and teachers focus on specific individualized learning targets.

SWING INTO RECESS!

**East Elementary is wanting to
enhance our playground swings!
We are raising funds to add a
wheelchair swing & three disc swings!**

DONATE HERE!

We have raised 20% of our goal over summer!
