

John Trumbull Primary School

Home Learning Resources

Kindergarten

Daily MUST do:

- Read for 30 minutes each day (log on back)
- AND play a math game with your family for at least 20 minutes

Daily FREE CHOICE: Choose a square from the columns below. See how many times you can get a BINGO!

B	I	N	G	O
<p><u>Read your Snap Words</u> Read your snap words in different voices!</p> <p>Write down tricky snap words! Snap Word List</p>	<p><u>Work with Letter Sounds</u> Using an alphabet chart, sing the ABCs. BUT try to sing the song making the letter sounds instead of letter names!</p>	<p>Tell a story through pictures and labels.</p>	<p>Complete a math lesson on IReady</p>	<p>Build a reading fort!</p>
<p>Share with someone: What connection did you make while reading this story?</p>	<p><u>Using letters!</u> Using an alphabet chart, close your eyes... point to a letter. Open your eyes. Say the name. Say the sound and write it! Then use it! Draw a picture for the letter. Label the picture!</p>	<p>Visit the ten frame app. Make as many teen numbers as you can.</p>	<p>Count to 100 by 10's</p>	<p><u>Snap Word Puzzles!</u> Choose three "tricky" snap words. Write them on a paper. Cut up each letter. Mix up the letters and put the puzzle back together!</p>
<p>Write your numbers counting down from 20. Draw dots under each number to show that number.</p>	<p>Word Families -ap Make a list of 5 or more words that rhyme with map.</p>		<p><u>Snap Word Hunt</u> Make a stack of books. How many snap words can you find in the books?</p>	<p><u>Use word part power!</u> Using word parts (see chart) create as many words using different beginning sounds!</p>
<p><u>Rainbow Writing</u> Choose three of your "tricky" snap words. Write each snap word three times in different colors!</p>	<p>Go on a shape treasure hunt in your house!! How many rectangles, triangles and circles can you find?</p>	<p>Build a book bin and find a quiet place to read in your house.</p>	<p>Today you will work fast and fluently. Have your child count to 100 but start at the number 27.</p>	<p>Play a math game on Greg Tang Math!</p>
<p>Help set the table for your family. How many plates, forks and napkins do you need?</p>	<p><u>Label Your House!</u> Walk around your house or bedroom and find places to label. Stretch out the sounds and write the sounds you hear!</p>	<p>Play Grab and Count. Grab a handful of legos, crayons or small toys. Count them and write the number.</p>	<p>Play math games on HoodaMath</p>	<p>Word Families -ot Make a list of 5 or more words that rhyme with pot.</p>

John Trumbull Primary School

Visit the ten frame app. How many ways can you drag the two colors on the ten frame?	Visit the geoboard app . Make as many shapes as you can!	Measure the path from your bedroom to the kitchen. How many steps does it take? Measure the distance to other parts of your house. What is the farthest?	Practice your math words	Play school with action figures, stuffed animals and dolls.

Reading Log and Math Games

Greater or Less Than

Players: Groups of two

Materials: Cards Ace through 10 for each player, face cards removed

Skill: Number recognition, order, and sequencing

How to Play: Each child gets a set of cards Ace through 10 (for the

One player selects a "secret card" from his/her hand and places it

face down. The second player tries to guess what the number on

the card is by selecting a card from his/her hand and placing it face up.

The first player then tells whether the secret card is greater than or less

up card. The second player continues to make guesses by selecting and showing different cards until he/she has discovered the value of the secret card.

Players then switch roles.

Play Store:

Give your child pennies and dimes. Tag a selection of small toys with prices under \$0.20. Take turns counting out the correct coins to buy different items at the store. Ask: Which costs the most? The least?

Concentration (for matching)

Place cards face down in rows and columns. Take turns finding matches by turning over 2 cards at a time. If the cards are a match, the player picks up those two cards and places two more cards face down. If the cards are not a match, that player returns the cards to their position face down. The game continues until all matches are made and the player with the most matches wins.

"Make Tens Concentration"

The goal is to make a match that equals 10. Remove all face cards. Place cards face down in rows and columns. Take turns finding a pair of cards that make ten by turning over 2 cards at a time. If the cards equal ten, the player picks up those two cards and places two more cards face down. If the cards are not a ten, that player returns the cards to their position face down. The game continues until all matches are made and the player with the most matches wins.
