## Kindergarten

Daily MUST do:

- Read for 30 minutes each day ( log on back)
- AND play a math game with your family for at least 20 minutes

Daily FREE CHOICE: Choose a square from the columns below. See how many times you can get a BINGO!

B	I	N	G	O
<p><a href="#">Read your Snap Words</a> Read your snap words in different voices!  Write down tricky snap words! <a href="#">Snap Word List</a></p>	<p><a href="#">Work with Letter Sounds</a> Using an alphabet chart, sing the ABCs. BUT try to sing the song making the letter sounds instead of letter names!</p>	<p>Tell a story through pictures and labels.</p>	<p>Complete a math lesson on <a href="#">IReady</a></p>	<p>Build a reading fort!</p>
<p>Share with someone:  What connection did you make while reading this story?</p>	<p><a href="#">Using letters!</a> Using an alphabet chart, close your eyes... point to a letter. Open your eyes. Say the name. Say the sound and write it! Then use it! Draw a picture for the letter. Label the picture!</p>	<p>Visit the <a href="#">ten frame app.</a> Make as many teen numbers as you can.</p>	<p>Count to 100 by 10's</p>	<p><a href="#">Snap Word Puzzles!</a> Choose three "tricky" snap words. Write them on a paper. Cut up each letter. Mix up the letters and put the puzzle back together!</p>
<p>Write your numbers counting down from 20. Draw dots under each number to show that number.</p>	<p>Word Families -ap  Make a list of 5 or more words that rhyme with map.</p>		<p><a href="#">Snap Word Hunt</a> Make a stack of books. How many snap words can you find in the books?</p>	<p><a href="#">Use word part power!</a> Using word parts (see chart) create as many words using different beginning sounds!</p>
<p><b>Rainbow Writing</b> Choose three of your "tricky" snap words. Write each snap word three times in different colors!</p>	<p>Go on a shape treasure hunt in your house! How many rectangles, triangles and circles can you find?</p>	<p>Build a book bin and find a quiet place to read in your house.</p>	<p>Today you will work fast and fluently. Have your child count to 100 but start at the number 27.</p>	<p>Play a math game on <a href="#">Greg Tang Math!</a></p>
<p>Help set the table for your family. How many plates, forks and napkins do you need?</p>	<p><b>Label Your House!</b> Walk around your house or bedroom and find places to label. Stretch out the sounds and write the sounds you hear!</p>	<p>Play Grab and Count. Grab a handful of legos, crayons or small toys. Count them and write the number.</p>	<p>Play math games on <a href="#">HoodaMath</a></p>	<p>Word Families -ot  Make a list of 5 or more words that rhyme with pot.</p>
<p>Visit the <a href="#">ten frame app.</a> How many ways can you drag the two colors on the ten frame?</p>	<p>Visit the <a href="#">geoboard app.</a> Make as many shapes as you can!</p>	<p>Measure the path from your bedroom to the kitchen. How many steps does it take? Measure the distance to other parts of your house. What is the farthest?</p>	<p>Practice your <a href="#">math words</a></p>	<p>Play school with action figures, stuffed animals and dolls.</p>

# John Trumbull Primary School Reading Log and Math Games

## Greater or Less Than

Players: Groups of two

Materials: Cards Ace through 10 for each player, face removed

Skill: Number recognition, order, and sequencing

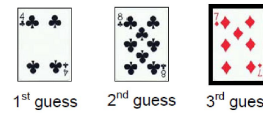

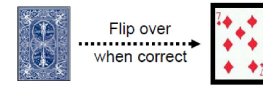

How to Play: Each child gets a set of cards Ace through 10 numbers 1-10).

One player selects a "secret card" from his/her hand and face down.

The second player tries to guess what the card is by selecting a card from his/her hand and placing it face up.

The first player then tells whether the secret card is greater than or less than the face-up card. The second player continues to make guesses by selecting and showing different cards until he/she has discovered the value of the secret card.

Players then switch roles.

cards

(for the

places it  
number on

## Play Store:

Give your child pennies and dimes. Tag a selection of small toys with prices under \$0.20. Take turns counting out the correct coins to buy different items at the store. Ask: Which costs the most? The least?

## Concentration (for matching)

Place cards face down in rows and columns. Take turns finding matches by turning over 2 cards at a time. If the cards are a match, the player picks up those two cards and places two more cards face down. If the cards are not a match, that player returns the cards to their position face down. The game continues until all matches are made and the player with the most matches wins.

## "Make Tens Concentration"

The goal is to make a match that equals 10. Remove all face cards. Place cards face down in rows and columns. Take turns finding a pair of cards that make ten by turning over 2 cards at a time. If the cards equal ten, the player picks up those two cards and places two more cards face down. If the cards are not a ten, that player returns the cards to their position face down. The game continues until all matches are made and the player with the most matches wins.
