

Buena Vista ISD  
COVID-19  
Mark Dominguez, Superintendent

The current situation surrounding the Coronavirus (COVID-19) is an ongoing situation that is being continually monitored. Based on information obtained today from the local agencies, state agencies, & national agencies; no known cases have been confirmed in Pecos County. At this time Buena Vista ISD has decided to extend spring break and close school for a minimum of one week (March 16-20). Rest assured that our students, faculty & staff remain our top priority.

BVISD Leaders, Faculty & Staff will be working diligently to make sure we have the best plan in place for our students under these circumstances. The BVISD Team will be meeting early this week to discuss our plans moving forward as it pertains to the education of our students. We will be exploring the plans for the possibility of what could lead to being away from school for an extended period of time. We will update you as soon as plans have been solidified.

Thank you in advance for your cooperation & support.

Mark Dominguez, Superintendent
