Updated March 16, 2020

Thank you for your patience during this unprecedented time in history. While we have navigated through many discussions about services provided and how those services are to be delivered, our goal is to provide quality educational opportunities and food services that will support our students and community during this extended period of time. This document will help you navigate through some of the most pressing questions as we move forward. Please understand that changes on a national and state level are taking place at a very rapid pace which, in turn, forces school districts and communities to make necessary decisions while treading this uncertainty. The majority of our communication will be through electronic capabilities and our one call system. If you do receive calls from the school, please do not ignore them as they will contain important information about changes and adjustments to the following information. Please read the following information carefully.

Pete Ruby
Superintendent
