

Beginning tomorrow, Tuesday, March 17, sack breakfast/lunches will be prepared by OPAA, our food service partner. Each bag will contain food for both breakfast AND lunch. These meals will be available for pick up between 11:00 a.m. and 1:00 p.m. at Jersey High School and Grafton Elementary by parents and caregivers of students that desire to receive student meals while school is closed. Parents/caregivers are asked to drive to the pick-up location, roll down their window, pick up the meal and proceed out of the parking lot.

We will be posting another survey in the next few days asking about additional pick up locations and other ways that we can improve this process. It is our goal to ensure that we minimize the effect of these extraordinary times on student nutrition, as well as student learning.

Please pick up meals in the parent pickup line of the parking lot at Grafton Elementary, and here is a map of the pickup route at JCHS. Please follow the signs to ensure that all needing to pick up a meal are able to do so.
