

READING

Dear Parent,

In our 1st grade reading intervention group we are currently working on blending and segmenting basic words. A packet is at Salt Creek Elementary with some things your child can work on at home. These activities should be a review of skills already taught.

There are practice pages for word reading, sentence reading, and passage reading. Make sure to have your child practice reading these every day. If they reread them again and again it will only make them more fluent and confident.

Please practice or complete one activity everyday. In addition, you can also support basic reading at home in the following ways:

- Reading books on your child's level.
- Play any game that involves reading.
- Any online reading app that your child's classroom teacher has shared with you such as Dreambox and IXL.

Feel free to contact me with any questions or concerns.

Good luck,

READING
