

March 1, 2023

Dear Parents and Guardians,

Research shows that a positive school climate can support student success. The Climate Committee and Middle/High School Administration are again this school year gathering data on students, staff, and parents' perceptions of the school climate in both the Middle School and High School. This data will help the school leadership team and staff identify areas of strength and improvement.

Because parent input is essential to positive change, both administration and staff kindly ask that you take part within this **anonymous** 5 minute survey which **will be open until March 31st**. Our goal is to have over 100 parents complete the survey before the closing date. **If we reach our goal, all students at Sharon Middle/High School will receive a free athletic wear day to be scheduled at a later date!**

Please let us know what you think by completing the survey by accessing the following link or QR Code:

<https://bit.ly/3XGWHi1>

Students will also be taking part in the climate survey during SEL instruction on **March 23, 2023**. Enclosed with this letter is a survey opt-out form. If you do not wish to have your child participate within the voluntary and anonymous survey, please fill out the form and return it to the Middle/High School office by March 20, 2023. Also included is information on the PA School Climate Survey from the **Pennsylvania Department of Education** for your reference.

Yours in Education,
Middle/High School Administration and the Climate Committee
