

March 16, 2020

Good Evening Placerville Families,

As we are working through the ever changing world that we are currently dealing with I want you to realize that your children are at the forefront of our thoughts. We want them to be safe and secure during this time of uncertainty. Our care and love for them is still unchanged.

The closing of schools is just one step in the efforts to our children, their parents and grandparents safe and away from situations that could aide in the transmission of the coronavirus. Many other steps are being taken throughout the State and Country. During this time please continue to follow the guidance of the CDC and local leaders. At PUSD we have been putting together plans for students to be receiving Learning Opportunities developed by their teachers through both learning packets as well as distance learning programs. Learning Packets will be available to be picked up on Wednesday at each site.

We have also put together schedules for students to receive meals through our cafeteria programs. A general pick up will be at Schnell School each day starting this Wednesday March 18th from 11:30-1:00. We will also be making satellite deliveries to areas with in district such as the Woodridge Apartments, Cottonwood Apartments and Swansboro. Specific times for the satellite deliveries will be set and communicated by the end of the day tomorrow.

As we move forward with these arrangements please continue to be patient knowing that guidance that we are receiving from the State is changing multiple times a day. Thank you for working with us during this time.

Thank you

Eric Bonniksen
