

INSTRUCTIONAL PLANS FOR CONTINUED LEARNING

The teachers in the Hermon School Department have developed plans to support continued education at home for these next few weeks. These plans include both low tech (paper and pencil/minimal materials) as well as high tech (websites, Google Classroom, Learning Applications on iPads) activities that reflect routines of teachers' classrooms that can easily be followed by students at home. Students in grades K-4 will be provided with hard copy packets, but plans are also attached here by school. Students in grades 5-12 should download the plans from the site below. Consistency, predictability, and personal responsibility (chores/pitching in) are also key for our learners. [HERE](#) is a suggested schedule to help your household plan for each day.

If you do not have home access to the internet, xfinity has opened up all their WiFi hotspots for free so kids will be able to log on at certain locations in their hometown areas to do schoolwork www.xfinity.com/wifi
In addition, Spectrum is offering temporary [free 60-day access](#): ★ To enroll call 1-844-488-8395

ALL LINKS BELOW WILL BE OPEN PUBLICLY THURSDAY MARCH 19th
