March 18, 2020

Dear Parents/Guardians,

As we continue to get updates from the Governor's office and White House you are probably just as informed as we are here at the school. From what the Governor stated this afternoon it looks as though our school will be closed for longer than a three-week period. He did not give any time frame, but believes that it will be necessary.

On the school front we have begun our meal delivery service and it has so far gone well. If you would like to have your child(ren) participate please contact the Board office or your bus driver and give us your child(re)'s name(s), address and contact number to confirm delivery.

The mobile hot spots have been ordered from T-Mobile. We do not yet know when they will be delivered the school, however when they do arrive, we will deliver the hot spots to those who have asked for them. If you or someone that you know, needs one of these devices please contact the Board office with the student's name, address and a contact number so that we may get the device to them.

Also School Resource Officer Deputy Michael Woods is available for welfare check on our students during this time. If you would like a wellness check please call the Board office and let us know.

Please remain in contact with your child(ren)'s teacher(s), building principal or the administration office. We are here for our students to make this the best possible experience. Please take care of yourself and your families.

As we hit the mid-point of the first week of closure, our staff as well as our students are on a very steep learning curve. Please be patient as we work through any technology issues, refine our online presence and work to give our students the best online learning experience we can provide. Please check the District website for the latest updates and please call 740-382-6065 with any questions.

Sincerely,
Robert A. Britton, Superintendent
