To Applicant:

Attached you will find the application form for the Town and Country Implement technician scholarship program that we have available to high school graduates and those currently attending a qualified technical training program in college. This scholarship program is for those students who are entering the diesel technology program and intend to work with farm equipment in the future. The technical requirements of this field are such as engine, electrical, hydraulics, A/C and many more components that make up today's modern tractors, combines, and other farm equipment.

We would like to thank you for requesting information and an application for the scholarship program we have available. Please review the program and visit with us about the details. Multiple scholarships may be available year to year as the need arises, so please complete the application or contact us at the below listed numbers.

This form must be completed and returned to Town & Country Implement at: 3105 Eagle Avenue, Rock Valley, IA 51247 or emailed to: keppinga@townandcountryimpl.com

Contacts for the program may be made to:

FFA Advisors & Guidance Counselors:

Town and Country Implement is introducing a new program and an opportunity for graduating students seeking a career as an Ag diesel technician. We are offering a prospective student and future technician an opportunity to receive a \$5,000.00 hand tool allowance and a \$15,000.00 scholarship for tuition reimbursement when completing their education.

In addition, when the student graduates from an acceptable technical school as an Ag technician and returns to work for our organization, we will donate \$1,000.00 to the student's local FFA chapter. This is a fantastic opportunity for your students to receive assistance in obtaining a college education. It also enables them a guaranteed position with our organization upon graduation.

Town & Country Implement is a family owned business that has been in business since 1979. In the beginning, there were just three employees & TCI was a White Farm Equipment and New Holland Ag dealer. Starting small, the importance of personal relationships with our customers was most important and remains that way today. Over the years the business has continued to evolve to meet the needs of our customers. Town & Country Implement now has 45 employees and two locations.

We are a full-service Case IH, New Holland, and Kubota equipment dealer in Rock Valley and Orange City, Iowa. With the help of many longtime employees we have built our business upon a continued dedication to customer service, honesty and trust in our business dealings, and ongoing desire to build long-lasting relationships with our customers. We work to improve your bottom line by offering industry leading agriculture and construction equipment with the best parts, sales, and service departments around.

Enclosed you will find a flyer that explains our scholarship program. Please use this to promote this opportunity to interested students. We would love the opportunity to discuss this program further with you, and also present this program to students. This program will significantly help students attain graduation from a technical school, and receive reimbursement for a good share of their expenses.

For more information, or to schedule an informal presentation, please email: keppinga@townandcountryimpl.com or bdorhout@townandcountryimpl.com. Our phone number(s) are 712-476-2731 in Rock Valley and 712-737-4874 in Orange City. Please ask for Kevin Eppinga in Rock Valley and Brandon Dorhout in Orange City.

Thank you for your time. We look forward to hearing from you.

Ivan Dorhout, President
Brandon Dorhout, Vice President

**Mutual Agreement Between the Parties
College Technician Program**

Upon being selected, TCI will purchase up to five thousand dollars (\$5,000) worth of hand tools for the selected future technician. Said tool receipts are required to be submitted at the time the technician requests reimbursement. An inventory of said tools will be made a part of this agreement.

Said tools are the property of Town and Country Implement until the technician has been a full-time employee of Town and Country Implement for five years (60 months) after graduation. If technician leaves employment prior to the five year (60 month) requirement, technician is required to return all tools. After the five year (60 month) requirement, said tools become the property of the technician.

Town and Country Implement will pay fifteen thousand dollars (\$15,000.00) in the form of tuition, books, room and board. Copies of said tuition expense, books, room and board are required to be submitted at the time technician requires reimbursement. Said reimbursement will be paid to technician in the form of (36) equal monthly payments, provided technician remains employed at Town and Country Implement. If technician leaves employment prior to the thirty-six (36) month requirement, monthly reimbursement will cease.
