

### **LMS Extra-Curricular Activities Transportation Policy**

- General: All students participating in off-site school-sponsored activities are expected to ride school-approved transportation. It is strongly recommended that school transportation be used as team chemistry and team time is important.
- Alternative transportation should be used for emergency or limited use. If needed, parent communication for picking up from events is now done by the **parent speaking to the coach and signing out their child after the contest.**
- A reminder that athletes can and should only leave with legal parents/adults/etc. - any alternative requests to leave with another parent must be communicated to the AD before the bus leaves for the contest. That parent must still sign out your child.

Thank you in advance for helping us with our transportation policy.
