

Parents & Students,

Snook ISD will have a digital learning platform available on the afternoon of Monday, March 23, 2020. There will be learning activities for each day in each core subject. All of which will be created by their classroom teachers. Each learning activity should be something that all students can pick up and do with the skills already learned this year. Each learning activity should also be an opportunity to engage with family. As an alternative to digital, Snook ISD will have print versions available. Beginning on Tuesday, March 24, 2020, Snook ISD will distribute print versions at the school, post office, and designated meal sites.

Snook ISD teachers and staff will be calling weekly to check on (1) the well-being of students, (2) student progress on the learning activities, and (3) any additional support students (or families) may need. This being the case, families are not expected to return assignments at this time. We also know, circumstances being what they are, that our families may be putting other things first. Like you, Snook ISD believes in providing a safe and supportive environment for all students and teachers. Rolling out this digital learning platform allows us to ensure the safety of Snook ISD families while encouraging learning.

The digital learning platform can be found on the school website at <https://www.snookisd.org/>

If you have any questions, please contact the school at 979.272.8307.
