Week 1 Learning Materials - March 23-27

Shauna Heiden Mar 19

This will be for week 1. You can go through and use what you need. It is all available to you. If you finish you know what I would tell you to do. Read a book. Listen to a Podcast. I will update this weekly so we have current events with our reading. Of course, nothing is graded. As always, if you need me my cell is 712-269-1558. You can call or text or you can also email me. We will try to meet as a group if you would like. That information is in the general announcement. As you look through the items I have attached - fun things first. Virtual tours of fun things. What else? Let me know if you are unable to access it. Enjoy the ride. Next is a Boggle Sheet. Remember we did this on the board last year. Just for fun. The Duck Song - because it is stuck in my head and I wanted to share that with you. The Chicken Noodle Soup - I made a copy for each of you. Of course, if that doesn't work make your own copy!! lol Finally - last, but not least an Article of the Week - Switched at Birth. Same as always. One-page response if you feel up to it. Heck - what else do you have to do. Lets keep those brains sharp. Remember the brain is like a muscle - it gets stronger with practice. Goodness, I miss you people!!!
