Instructions Student work

## Week 3 Learning Materials April 6 - April 10

Much like the other weeks. I will be providing a few learning opportunities for your enjoyment. First up \#1 - A Google a Day. Most of you probably have heard of this. I had not. It will keep your brain sharp. Remember - that brain is like a muscle . . . it gets stronger with practice. I wanted to make sure you didn't miss hearing that. Iol \#2 - AOW - The Meal Worm - You know the drill. Read the instructions. You can either do the one page or follow the instructions on the article.
\#3 - Not to be outdone by my previous weeks. **When Life Gives You Lemons Video. I thought you might enjoy this video. Heck may you should try to build your own. Ask your parents first.
\#4 - Another virtual tour - This one is a farm tour. Should be fun
\#5 - NYT - Picture or in this case a video with a short article and a few questions. Create a docutment. The usual. Iol
