Social Studies:

www.onlyinyourstate.com Then choose Michigan

Math:

bake, weigh anything, measure anything, count change

Math antics (YouTube) Watch the video "Fractions are Parts" This is an introduction to fractions, the numerator and denominator terms and what they represent. Students could also be practicing/learning their multiplication facts.

Science:

Plant an indoor garden, record daily changes, measure plants, and write observations. Go outside for nature hikes. Mrs. Elliott's class just finished ecosystems and organisms unit. Mrs. Frasle's class is doing Weather at this time. Mrs. Frasle's science: Keep a log of weather each day and changes that you observe (clouds, wind, temperature, air pressure, etc.).

ELA:

Write to a friend, or someone in a nursing home or just log your daily learning activities

Visit our Facebook classroom page for daily writing prompts for short writes.

www.stories.audible.com Click on Elementary and there are 74 books which students can listen to. There are also Classics.
