Dear Parents:

The COVID-19 impact on our schools and communities is rapidly changing by the minute. Therefore, our county action plans and response must evolve accordingly. As we continue our preparations to serve children and families we need to assess the child care needs of our families, especially those families providing essential services such as: Essential Healthcare Services, Child Welfare, First Responders, Food Manufactures, Transportation, Construction and Manufacturing, and Non Profit and Social Service Agencies. Financial assistance will be made available to families who are considered essential to the health and safety of the community. In order to assess the need for child care in Chautauqua County we are asking families to complete the following survey:

[Child Care Need Survey](#)

Families who are considered essential workers and cannot be excused from work are encouraged to contact the Child Care Council Resource and Referral Specialist who can assist with finding child care. You may reach out to the Child Care Council for any child care needs at 1-800-424-4532 or [childcare@chautopp.org](mailto:childcare@chautopp.org).

Thank you,

Karen Krause
Interim Superintendent
Clymer Central School
