March 13, 2020

Dear Parents,

Due to the evolving situation concerning the Coronavirus, we have put a plan in place in the event that schools are required to close their doors following Spring Break. Attached is a packet of materials for your child.

This packet is a review of materials already covered this school year as well as, a sample of new materials to come. It might include upcoming spelling words, math facts, sight words, etc. Your student might also have an AR book that they could read and be ready to test upon returning to school.

If school were to close due to the Coronavirus, you will have access to websites that your child uses on a daily basis at school. Links will be posted on our school website under the Elementary page. Username and passwords will be included in the packet for the websites that pertain to your student. As a reminder, Renaissance Home Connect is **always** available on our website under quick links on the home page. Renaissance Home Connect gives your child extra practice on math facts 24/7.

As of now our District is planning to return to school following Spring Break on Monday, March 23rd. If for any reason this would change, you will be notified through our notification system which includes our website, facebook and telephone. The information will also be provided to our local news channels.

Thank you for your support and understanding during this ever evolving situation. Enjoy your Spring Break!

Sincerely,

Kim Boeckman
Principal, Lindsay Elementary
