March 19, 2020

All EHS Parents and Guardians,

As you know the staff at Ellsworth High School is in the process of organizing the best way to send academic materials to your child as soon as we can so they can complete work in a fair and equitable way.

Teachers have set up some online programs to send work to your student. There are also packets that will be mailed to homes tomorrow, so students can start working next Monday. There have been questions about turning in completed work to teachers so they can correct assignments. If teachers have not shared with you how to do this the simplest ways are to share a Google Doc with your teacher, scan and email it to your teacher, or simply take a picture of it with your phone and email it to your teacher. Email addresses are on our website.

I hope this information helps and please contact me if you have questions.

The Ellsworth School Department and Ellsworth High School will communicate with you as there is additional information to share.

Sincerely,

Dan Clifford

Principal
Ellsworth High School
