

FYI – The following has been shared with Special Education Directors,

The Special and Education Title Services (SETS) team has continued to receive questions on legal, fiscal and data reporting requirements during this challenging time. Attached is an updated document with additional questions we received since we previously issued this document on Monday, March 16 and Wednesday, March 18. We want to provide answers in a uniform and consistent manner. As you all are aware, this is a rapidly changing situation and this document will be continually revised to provide the most up to date information. During the webinar we held on Thursday, March 19, we collected questions that directors submitted. For every new special education or fiscal question asked during the webinar, we have made every attempt to provide an answer in this update. Questions that pertained to topics other than special education law or fiscal requirements are not addressed in this document, as those topics are outside the scope of SETS work. If you have questions about this document or feel that your specific special education question has not been answered, please contact Tiffany Hester ([thester@ksde.org](mailto:thester@ksde.org)), Mark Ward ([mward@ksde.org](mailto:mward@ksde.org)), Brian Dempsey ([bdempsey@ksde.org](mailto:bdempsey@ksde.org)), or Laura Jurgensen ([ljurgensen@ksde.org](mailto:ljurgensen@ksde.org)).
