

HOLA !

Hi I am Coronavirus,
cousin of the cold and flu

I love to travel.....

And jump
between
peoples hands
to say Hello

**HIGH
FIVE**

Have you heard about
me ?

Yes

No

How do you feel when you
hear about me?

Calm

Confused

Worried

Curious

Nervous

Sad

I can understand if you
feel.....

...I would feel the same way.

Sometimes grownups
worry about me when
they read about me on the
news or see me on T.V.

But I will explain and teach you...

So you can learn and understand

When I come and visit , I bring ...

Lack of Air

Fever

Coughing

But soon I leave and, most
people recover and feel better again...

Kind of like when you
scratch your knee and it
heals and recovers

BYE BYE...

So you can be calm and not worry
Grownups that take care of you
will keep you safe...

And you can help.....

1

Wash your hands with soap and water, while you sing your favorite song.

You can sing while you wash ...

2

Use antibacterial and let it dry.

You can blow on your hands like a birthday candle to help them dry faster...

This way I won't come and visit...

While doctors work to find a vaccine
that will let me come and say hello
without making you sick.
