EDUCATION OPENS DOORS

Today, the Oklahoma State Board of Education voted to close school facilities for the remainder of this school year in response to the outbreak of the Covid-19 virus. The State Board also directed us to begin developing plans for addressing our students' educational needs for the remainder of the year through a Distance Learning Format. The way in which this will be done will vary throughout all of the schools in Oklahoma. At this time we are working with our teachers to examine how this will look at Muldrow. We want to assure you that we are working diligently to develop a plan that includes a variety of ways in which we can all work together to do the very best for our students.

We realize that not all families have access to online tools. We want to reassure that we are working to develop a plan that will be beneficial to all students and parents. As plans are developed, we will update you through phone messages, the school website, and all of our social media outlets.

At this time, we are asking all parents of elementary students to provide us with an email address that can be used for communication purposes. Please send your information to your child's teacher by using teacher school email accounts. Teacher's email addresses are as follows:
firstname.lastname@staff.muldrowps.org. You can also access this on our school website at www.muldrowps.org. Please include your child's name when you send the email address to the teacher. You will receive further instructions on communications after we receive this information. If you do not have an active email account, please send us an up-to date phone number in which you may be reached.

We will continue to offer breakfast and lunch at the middle school for all students. Please tell your students how much their teachers love and miss them. Stay Safe and Stay Tuned for more information in the upcoming days.
