Due Mar 27
Book Recommendation   10 points

Rhea Flyberg   Mar 24

I'm asked all the time for book recommendations, so in your first assignment I'm asking for your help in updating (My Student Must Read) list. In 1-2 paragraphs I want you to recommend a book that you have read that should make my list. Be sure to list the title and author, what the book is about, and the reasons this book should make my list. If you have more than one recommendation feel free to tell about that one as well. Let's help others find the perfect book!
