

Hawkswood School

TRANSFORMING LIVES, EVERYDAY

March 25, 2020

Hello Families,

On behalf of the entire Hawkswood School community, I sincerely hope this email finds you and your loved ones safe and happy as the days continue and we think about the future of our remote learning plans.

Rest assured, we have heard, and value, your requests for more “virtual interaction” throughout the week with staff members. To that end, classroom team members will use Google Meet to have short video check-ins with families/students throughout the week. Anyone can be a participant in Google Meet, you do not need a Gmail account to join a meet-up.

While there are many platforms for video interaction, we have trialed Google Meet and it is successful! You may participate via your electronic device, or choose to do a phone call, if you prefer. Please note that teachers and therapists will be sending you “invitations,” and instructions with your login code, to these meetings, as they are scheduled for specific dates and times.

Please also be confident that we are continuing to look at additional interactive platforms to be used along with Google Meet, as I am sure many of you are already familiar with some that other schools utilize.

Just know that our staff are missing you and your children as much as you are probably missing the school routine, and we are looking forward to seeing all your faces through video soon!

If you have a specific question, comment or concern, as it relates to Google Meet, please contact your child’s teacher, or me directly.

Sincerely,

Michelle Moro, M.Ed.

Supervisor of Special Education
