March 25, 2020

Greetings patrons, staff, and students,

We are a few days into the planning phase of this forced re-design of school. Staff have been working with families to arrange for distribution of learning materials and devices and for the return of belongings. Hiawatha Elementary and Middle Schools started that process today. Hiawatha High School did so yesterday. Distribution is also available by appointment at all three schools.

As I shared yesterday, Rainbow Communications has generously created several Wi-Fi hot spots This will certainly help many of our families and students. Rainbow also continues to offer for sale self-install internet packages. With these options and phone data packages, a large majority of our students should have access to remote learning. Parents are asked to notify their school if internet access is not possible in their home.

While the amount of news today may not be great, the amount of work being done by our educators and staff is significant. Teachers continue to gain new knowledge and discover viable resources around the clock and our leadership team continues to problem-solve and plan for the roll-out for student learning. This will begin Monday, March 30.

USD 415 Food Service continues to serve meals in a variety of locations. This seems to be growing in popularity. Unfortunately, we ran out of meals today. Please know we estimate as accurately as we can but have little way of knowing who will participate. We will adjust and make more meals available for the coming weeks. We want to ensure no child goes without food.

As always, contact your schools or the district office with questions or concerns. Thank you.

Sincerely,

Lonnie Moser, Superintendent
