

Sharon City School District Technology Survey

We are asking families to provide information related to access to technology in the home in an effort to determine what resources are necessary to continue learning during a period of extended closure.

Parents/Guardians: Please notify the school district of the following:

- **Do you have internet access in your home?**
- **Do you have the ability to send & receive emails?**
- **Do you have access to a device(s) in your home (desktop computer, laptop computer, tablet, etc.) that could be utilized by a student(s) for learning in the home during an extended period of closure?**

Parents/Guardians that can answer “YES” to the three (3) questions above should send their responses including your child(ren)’s name, grade level and school building via email to techinfo@sharonsd.org by Wednesday, April 1, 2020.

Parents/Guardians that answer “NO” to any of the three questions listed are asked to call the school district (724-983-4000 x4097) on weekdays from 8:00 AM – 3:00 PM to respond and provide your child(ren)’s name, grade level and school building by Wednesday, April 1, 2020.
