The Ultimate Change in Routine: Supporting Parents of Children with Autism Through COVID-19

Monday, March 30, 2020 | 11:00am-12:00pm

WebEx Event

Individuals with ASD are uniquely impacted by the many changes that have come with the emergence of COVID-19. This webinar will focus on practical tips for parents in supporting children with ASD during this time. We will discuss strategies for designing and implementing new routines, ways to approach explaining changes in daily life due to COVID, and how to maintain social skills virtually. We will also share resources specific to individuals with ASD.

Michelle Lee, PhD
