

Clever:

- Go to Clever.com (there is an app that can be used on some devices)
- Find school: **Bismarck-Henning Community Unit School District #1**
- Username and Password are the same number for each student. It is the student ID number. The first 4 numbers are the students year of graduation then a number 1 for our district number and the last three numbers will be special to each student. Most all students know this number because we use it often at school. Example: 20201---
If you need this number, ask your student's teacher.
- Once in Clever you will find apps that students have used in school. If the app is accessible by students they will be able to click onto the app and it will begin to work.
- Students will be able to take AR test through Clever and then clicking on the Renaissance Place app
