

Local Gov't Leaders, School District Representatives, Public Health Representatives, Healthcare Facilities in NWA, Public Safety Chiefs (Police/Fire/EMS):

In an effort to improve coordination, communication and efficiency, Benton and Washington County and other area public safety representatives are hosting a weekly meeting on the Coronavirus COVID-19. This meeting is designed to be multi-disciplinary and multi-jurisdictional. Our objective is to foster cooperation among many governmental entities. The meeting will be hosted in a centralized location by the Springdale Fire Department at Station #1, located at 417 North Holcomb Street in downtown Springdale. We request the presence of all local governments (city/county), interested public safety agencies, local hospitals, and the various public schools within the region. State Department of Health representatives will also be in attendance.

This meeting is designed to last approximately one hour and cover the following topic areas:

- Current Situation Report
- Workforce Protection and Preparedness
- Healthcare Systems
- Law Enforcement
- Emergency Response (911 & EMS)
- School Districts and Mass Gatherings
- Public Information and Intelligence
- Other Key Topics (multi-discipline)

Besides sharing information, this meeting is a clearinghouse for your questions and concerns. We hope allied entities can help solve problems on a larger scale. Representatives from the Washington and Benton County Emergency Management Offices will facilitate the discussion. Please RSVP to Rogers Fire Chief Tom Jenkins at tjenkins@rogersar.gov
