BLAINE SCHOOL DISTRICT
## Home of the Borderites

Student Chromebook Setup Guide

Step 1:

To connect to the Internet, use a compatible Wi-Fi network.

1. At the bottom right, select the time to display the menu seen here **--->**
2. From the menu select the item No network to display a list of available Wi-Fi networks.
   Note: If you see your Wi-Fi network name and a signal strength, your Chromebook is already connected to Wi-Fi.
3. Select your Wi-Fi network from the list and enter the Wi-Fi password.

4. When connected the Wi-Fi symbol will display the signal strength
5. After successfully connecting your Chromebook to your Wi-Fi network your Chromebook will continue to automatically connect to a known Wi-Fi network.
6. Allow the Chromebook to sit at the Google login screen for 2 minutes to load the most recent district profile.
7. Restart the Chromebook, continue to the next step.

Step 2:

Log into your school Google account.

1. After connecting to the available Wi-Fi network enter your school Google account using your first.lastname format.
2. District Google passwords for K-5 students are Blaine**** (* is student lunch code) 6-12 students use a common password for Google and Skyward.

3. After successfully logging into your Google account, check to make sure you have Wi-Fi signal

Step 3:

Open Chrome browser and click on the G-Suite application button to open the desired Google application
