Hello Root Parents and Families,

As we get updated information and health guidelines we continue to make sure that safety for everyone is the number one priority. Please see the procedures below as we have made a change highlighted below that will be in place Monday March 30.

Alternative Methods of Instruction (AMI) Packets are available to pick up. Packets will be available for pick up in the back of Root School from 7:15 a.m-3:00 pm on Monday, March 30. The procedure will be similar to back car rider pick up. You will need to pull around the back of the building to the awnings. **We will have tubs labeled by grade level with packets under the awnings. We ask that only one person be out of the vehicle at a time to pick up packet(s) you need for your children. Once the car/person has left the packet pick up area the next person can then proceed to pick up your needed packets.**

If you are unable to pick up packets, you may download them and print them from our district [AMI website](#). Or, if the above times do not work, we will place packets in plastic tubs at the main office entrance after 3:00 p.m. on Monday. Please continue to follow one person at a time procedure if someone else is picking up at the same time.

If you have questions regarding the work assignments, please contact your child's teacher.

Thank you again for your support and continued partnership in your child's education through this challenging time and as always if we can assist in any way please let us know.

Root Pride,

Jason Edwards and Claire Garrett
