COVID-19 UPDATE (#9)
ELEMENTARY STUDENTS AND FAMILIES

8:00 am 3/31/2020

Dear Hillsboro Elementary Students/Families:

Our entire school staff has been thinking of you and organizing opportunities for all. Please know that our primary concern is to continually maintain connections with all of our students and families.

- We believe communication is a top priority during this time.
- All content is considered enrichment and an opportunity for continuous learning at this point for our elementary school students.
- Our biggest concerns right now are ACCESS and EQUITY.
- We understand that access to devices and WiFi is problematic, but we're doing our best to provide what we can. Please contact us if you have issues that we may be able to help you with.
- Keeping in touch with your teacher/s is key.
- This online learning is an opportunity for our students to engage in continual learning and establish structure/routine with teacher/s.

All teachers will be continuing to develop weekly communication with our goal of having our learning processes established for students starting Monday, April 6th.
