Chromebook Login Instructions

1) Open the chromebook lid. (If the chromebook doesn’t come on, please press the power button to turn on the chromebook.)
   a) If the chromebook will not turn on, plug in the charger to make sure the chromebook is charged.
   b) If you still are unable to get the chromebook to turn on, please return the device and pick up a different chromebook.
2) Select your wireless network.
3) Enter your wireless network password (only for secured networks).
4) Click on connect.

Elementary School Students (Very Important)
If you have your student’s QR code, then click “NEXT” and hold the badge up to the camera to log into the chromebook.

  If you stay on the badge screen to long (about 10 seconds, you will see a “Log in” button. Do not use this, it will not log your student into the chromebook.

If you **DO NOT** have the student’s QR code, then you have to click on the “Sign in with a different account” link on the Sign in to your Chromebook page and then input your student’s email address and password.

5) Enter your school email address (last name + last 3 digits of lunch# @tcits.org) and press enter or click next on the screen.
   a) Only @tcits email accounts are authorized to logon to the chromebook.
      All other email accounts will not let you logon to the chromebook.
6) Enter you email password (tcs+lunch#, example is tcs12345) and press enter or click next on the screen to sign-in to the chromebook.
