7.5—PURCHASES OF COMMODITIES

Purchases shall be made in accordance with State laws and procurement procedures governing school purchases that are deemed to be in the best interest of the District and are the result of fair and open competition between qualified bidders and suppliers.

DEFINITIONS

“Commodities” are all supplies, goods, material, equipment, computers, software, machinery, facilities, personal property, and services, other than personal and professional services, purchased on behalf of the District.

“Specifications” means a technical description or other description of the physical and/or functional characteristics of a commodity.

Purchases of commodities with a purchase price of more than \$20,000 require prior Board approval, unless an emergency exists in which case the Superintendent may waive this requirement.

The district shall notify in writing all actual or prospective bidders, offerors, or contractors who make a written request to the district for notification of opportunities to bid. The notification shall be made in sufficient time to allow actual or prospective bidders, offerors, or contractors to submit a bid or other appropriate response. The board shall accept bids submitted electronically by email or fax for any and all district purchases, unless specified to be submitted by other means or methods, and except those bids which have been specified to have a designated date upon which the bids shall be opened. The superintendent shall be responsible for ensuring submitted bids, whether written, faxed, or emailed, are retained in accordance with policy 7.15—RECORD RETENTION AND DESTRUCTION.

The district will not solicit bids or otherwise contract for a sum greater than \$25,000 with vendors that are on the “excluded parties list” if the contract is to be paid from federal grant funds.

All purchases of commodities in which the estimated purchase price equals or exceeds ten thousand dollars (\$10,000) shall be procured by soliciting bids. Specifications shall be devised for all commodities to be bid that are specific enough to ensure uniformity of the bid and yet not so restrictive that it would prevent competitive bidding. The bid specifications shall not include the name or identity of any specific vendor. The Board reserves the right to reject all bids and to purchase the commodity by negotiating a contract. In such an instance, each responsible bidder who submitted a bid shall be notified and given a reasonable opportunity to negotiate.

Bids shall be awarded after careful examination of the details of the bid to determine the best overall value to the District. In instances where the low bid was not accepted a statement of the reasons shall be attached to the bid. Bidders submitting written bids shall be notified in writing of the bid award.

The following commodities may be purchased without soliciting bids provided that the Board determines in writing that it is not practicable to use other than the required or designated commodity or service, and a copy of this statement is attached to the purchase order:

1. Commodities in instances of an unforeseen and unavoidable emergency;
2. Commodities available only from the federal government;
3. Utility services;
4. Used equipment and machinery; and
5. Commodities available only from a single source.

Prospective bidders, offerors, or contractors may appeal to the district's superintendent if they believe the district failed follow district bidding and purchasing policy or state law.

Any award of a contract shall be subject to revocation for ten working days or, if an appeal is received, after resolution of the appeal. This shall give prospective bidders, offerors, or contractors the opportunity to appeal the bid award if they believe the facts warrant an appeal. Any appeal shall be **in writing by certified mail** and received by the district office, "attention to the superintendent" within seven calendar days following the initial and revocable award of the contract.

If the district receives an appeal of a bid award, they shall notify, in writing, those prospective bidders, offerors, or contractors who have made a written request to the district for notification of opportunities to bid that an appeal has been submitted. The notification shall state:

- that the contract award has been halted pending resolution of the appeal and could be revoked;
- the reasons for the appeal;
- that the recipient of the letter may respond to the protested issues identified in the appeal;
- the date the decision on the appeal will be made and notification sent;
- that if the appeal is upheld, the bidding process will start all over again;
- that if the bidding is re-opened, changes will be made to the request for bids as necessary to satisfy the reasons for upholding the appeal.

The sole authority to resolve any appeal made relating to this policy shall rest with the superintendent. The superintendent's decision shall be final and conclusive. In the event the district upholds an appeal, the sole responsibility of the district to the aggrieved bidder(s) shall be the re-opening of the bidding process.

The District reserves the right to extend or renew a contract that was previously awarded under the process governed by this policy and law, provided the extension or renewal meet the following criteria.

1. The equipment and services provided under the extended or renewed contract meets or exceeds the specifications of the original bid.
2. The extended or renewed contract agreement complies with the state of Arkansas's documentation requirements.
3. The cost of the extended or renewed contract is the same or less than the original contract.
4. The extension or renewal is approved by the local school board.

7.10—PUBLIC USE OF SCHOOL BUILDINGS

It is the policy of the Board that District school buildings may be used by citizens of the District to conduct lawful meetings for social, civic, or recreational purposes provided such meetings do not interfere with the regular school work, and proper protection is afforded the district against the potential costs of such use. The Superintendent shall be responsible, with Board approval, for establishing procedures governing such use of school buildings. The governing procedures shall be viewpoint neutral. Building principals shall be consulted to determine if there exists any conflict with planned school activities prior to other groups being allowed to use school facilities.

The District shall establish a fee schedule for the use of school facilities. Charges made for the use of school facilities shall reflect the actual costs (e.g. labor, utility, and materials) incurred by the District. The District shall also require any non-school related group using a district facility to purchase sufficient general or event liability insurance to cover the damage to, or the cost to entirely replace the structure(s) and furnishing(s), if necessary due to the loss of, or damage to, District property.

Organizations using school facilities assume full and complete responsibility for the conduct of all persons, regardless of age, associated with their use of the facility while they are in or about the facility. School employees may participate as part of a community organization which is renting a school facility for a political purpose.

Any school employee found guilty or who pleads guilty, or nolo contendere to the use of District funds to support any ballot measure shall be immediately suspended and recommended for termination by the superintendent.

School employees are allowed to verbally express their view on a ballot measure other than in an attempt to persuade a student to the employee's point of view.

District employees and members of the Board of Directors may incur incidental expenditure of District funds for travel costs when speaking at an event in which a ballot measure is discussed if the subject matter of the speaking engagement is within the scope of the person's official duties and responsibilities.

District funds may be used to disseminate public information at a public speaking engagement. The incidental use of District resources may be used to prepare an analysis of the public information if such information is within the scope of the person's official duties and responsibilities.

7.12—EXPENSE REIMBURSEMENT

The requirements of this policy shall govern reimbursement for expenses related to travel and/or attendance at conferences and professional development activities incurred by district employees and/or members of the Board of Directors on behalf of the district. Employees are only eligible for reimbursement for travel expenses for travel which has been approved in advance. Original receipts must accompany all requests for reimbursement to the extent that such receipts are customarily available. For a receipt to be valid it should contain the name of the issuing company, the date, and an itemized amount. No cash advances shall be made for travel. Mileage, lodging, and meal expenses will not be reimbursed when incurred for the personal convenience of the employee and not required by the reason for the travel. Reimbursement for travel shall be for the lesser of the cost between travel by air or by car with some consideration allowed for length of time of the method of travel.

To the extent practicable, employees shall have the district pay initial conference and professional development registration fees and associated necessary and materials. In the occasional circumstances where this is not practical, the district shall reimburse the employee for such fees if they were authorized in advance and are supported with proper receipts.

The district will not reimburse expenses of any non-school board member or non-employee who accompanies the school board member or employee during his/her school related travel.

Reimbursable Expenses

Mileage that is driven for a district sanctioned purpose in an employee's personal vehicle shall be reimbursed provided appropriate documentation is submitted establishing the date and time, place, and purpose of the travel. Mileage shall be reimbursed at the current rate of forty-two cents (.42) per mile and shall be based on the shortest, most reasonable, route available. Airfare will be reimbursed at fifty-two cents (.52) per nautical mile or actual expense whichever is less.

Meals may be reimbursed for travel which necessitates an overnight stay when submitted according to the dictates of this policy. Meals shall be reimbursed up to \$35.00 per day when traveling in-state and \$50.00 per day when traveling out-of-state. Except as otherwise specified by this policy, meals are only reimbursable in conjunction with travel requiring an overnight stay.

Tips are not a reimbursable expense. District funds may only be used to pay a tip or gratuity if the tip or gratuity is automatically added to the cost of the meal. For example, if a tip or gratuity is automatically added to the price of the meal due to seating a large group.

Meal expenses incurred by the superintendent or other administrators as necessary, in the performance of their duties when meeting with state officials or consultants may be reimbursed on a prorated, per person basis in line with the mandates of this policy. Such expenses shall only be reimbursed when the expenditure is likely to result in a tangible benefit to the district.

Travel necessitating overnight lodging (50+ miles) shall be reimbursed to the extent that it is not lavish and is reasonable based on circumstances of the expenditure. Proper documentation establishing the date and time,

place, and purpose of the travel must be submitted along with a receipt for the overnight accommodations. To the extent practicable, employees shall receive assistance from administrators or their designee in arranging travel plans to help keep expenses to a minimum.

Expenses not covered

The district shall not reimburse the following items/categories of expenses.

- Alcoholic beverages;
- Entertainment expenses – including sports or sporting events; pay per view or game expenses at motels;
- Replacement due to loss or theft;
- Discretionary expenses for items such as clothing or gifts;
- Medical expenses incurred while on route to or from or at the destination of the reason for the travel;
- Optional or supplementary insurance obtained by the employee for the period covered during the travel; and
- Tips, other than those required by the source of the expense, e.g. a restaurant which adds a tip to the bill for all groups of six or more.

Credit Cards

Only those employees specifically issued credit cards to be used in the performance of their jobs to purchase goods, services, or supplies on behalf of the district shall be allowed to use such cards. Employees who incur reimbursable expenses as defined in this policy are expected to pay for them initially by any means they choose and then submit their request for reimbursement. The district assumes no responsibility for the payment of any personal credit card charges incurred by a district employee.

Airport Associated Expenses

Receipts for airport associated expenses are required for reimbursement. All airline flights shall be by coach/economy class. One regular weight luggage bag will be covered. Upon arrival at their destination, employees are expected to take the less expensive option between a taxi and an airport shuttle service to his/her hotel or meeting site. When circumstances dictate that a rental car is necessary and/or the most economical approach to the travel requirements, the least expensive car that will accomplish the job should be rented.

7.13—MANAGEMENT AND DISPOSAL OF DISTRICT PROPERTY

Definitions

For the purposes of this policy, the following definitions apply:

Commodities are all supplies, goods, material, computers, software, machinery and other equipment purchased on behalf of the district having a useful life of more than one year and an acquisition cost of \$1,000 or more per unit.

Surplus commodities are those commodities that are no longer needed, obsolete, irreparable, or worn out.

Real property is land and whatever is erected or affixed to land, such as structures or buildings.

Surplus real property is real property that is not presently needed or foreseen to be needed by the District, and that has been authorized for sale as surplus real property by vote of the School Board.

Trash are those items that would otherwise belong to another category of goods or property defined in this policy, but which, due to the property's age or an act of God, have less value than it would cost to repair the item. Examples could include, but are not limited to, fire damage, vehicle accidents, extreme age and/or decline in value of the item.

The District's purchases of commodities shall be in accordance with Policy 7.5—PURCHASES OF COMMODITIES and, to the extent applicable, the procurement requirements of any granting source of funding used to purchase the commodity. The Superintendent shall develop procedures governing the use, management, and dispersal of commodities. At a minimum, the procedures will cover the following topics.

- labeling all commodities;
- establishing adequate controls to account for their location, custody, and security;
- annually auditing the inventory of commodities and updating a listing of such commodities to reconcile the audit with the district's inventory records. The audit will be documented and account for any transfer and/or disposal of a commodity.
- Disposing of surplus commodities and surplus real property, whether purchased in whole or in part with federal grant funds or with local funds.

Disposal of Surplus Commodities

The Board of Directors recognizes that commodities sometime become of no use to the District and thus meet this policy's definition of surplus commodities.

The Superintendent or designee(s) will determine the objective fair market value of surplus commodities. The District will strive to dispose of surplus commodities at or near their fair market value.

The Superintendent may declare surplus any commodity with a fair market value of less than \$1000. Surplus commodities with a fair market value of less than \$1000 will be periodically sold by the most efficient, cost effective means that is likely to result in sales at or near fair market value.

The Superintendent may submit a list of surplus commodities deemed to have a fair market value of \$1,000 or greater to the Board of Directors for authorization to sell such surplus commodities. Once the Board of Directors has authorized the sale of such surplus commodities, the Superintendent or designee(s) may sell that surplus commodity as the need arises. Items with a fair market value of \$1,000 or greater will be sold by the most efficient, cost effective means that is likely to result in sales at or near fair market value. If the Superintendent chooses to dispose of the surplus items by bid, the Superintendent or designee may set a minimum or reserve price on any item, and may reject all bids. The Superintendent or designee is authorized to accept the high bid provided the high bid is at or near the fair market value without further Board action unless the high bid comes under the jurisdiction of Arkansas ethics legislation in which case the provisions of A.C.A. §§ 6-24-101–107 would apply.

If attempts at public sales fail to produce any interested buyers or bidders, such remaining unsold commodities may then, at the discretion of the Superintendent, be disposed of as scrap or junk or be donated to appropriate charitable or education related entities. Computer or technology equipment will be cleansed of data prior to disposal.

Disposal of Surplus Real Property

The Board of Directors recognizes that real property it owns sometimes becomes no longer of use to the District and thus meets this policy's definition of surplus real property.

The Superintendent may submit a request to the Board of Directors for authorization to sell surplus real property. Once the Board of Directors has authorized the sale of such surplus real property, the Superintendent or designated individual(s) may sell that surplus real property as the need arises. The Superintendent or designee(s) shall be responsible for getting a determination of the objective fair market value of surplus real property. The district will strive to dispose of surplus items at or near their fair market value. The real property may be listed for sale with a real estate broker, and the Superintendent or designated individual may contract on behalf of the district to pay the usual and customary sales commission for such transactions, upon sale of the property.

If the Superintendent chooses to dispose of the surplus items by bid, the Superintendent or designee(s) may set a minimum or reserve price on any item, and may reject all bids. The Superintendent or designee is authorized to accept the high bid provided the high bid is at or near the fair market value without further Board action unless the high bid comes under the jurisdiction of Arkansas ethics legislation in which case the provisions of A.C.A. §§ 6-24-101–107 would apply.

If attempts at public sales fail to produce any interested buyers or bidders, such remaining unsold real property may then, if agreed to by the Superintendent and Board of Directors, be donated to appropriate education related entities or not-for-profit organizations in accordance with the provisions of state law.

Items obtained with federal funds shall be handled in accordance with applicable federal regulations, if any.

The disposal of school property must be for the benefit of the school district and consistent with good business principles.

Trash, as defined in this policy, may be disposed of in the most cost efficient or effective method available to the district.

Disposal of Surplus Real Property After Consolidation

Real property of a consolidated school district that is no longer being used for educational purposes and has not been sold, preserved, leased, or donated two (2) years after the effective date of consolidation shall be made available for use by a publicly supported institution of higher education, a technical institute, a community college, a not-for-profit organization, a county, or a city by the Board of Directors for the following purposes:

- Having the real property preserved, improved, upgraded, rehabilitated, or enlarged by the donee;
- Holding of classes by statutorily authorized education related entities; or
- Providing community programs and beneficial educational services, social enrichment programs, or after school programs.

7.14—USE OF DISTRICT CELL PHONES AND COMPUTERS

Board members, staff, and students shall not be given cell phones or computers for any purpose other than their specific use associated with school business.¹ School employees who use a school issued cell phones and/or computers for non-school purposes, except as permitted by District policy, shall be subject to discipline, up to and including termination. School employees may be issued District cell phones if their position requires the employee be available at all times for work related emergencies or the employee be available to speak with others on school related business when the employee is away from the office. Employees issued cell phones for such purposes may use the phone for personal use on an “as needed” basis.

Students who use a school-issued cell phones and/or computers for non-school purposes, except as permitted by the District’s Internet/computer use policy, shall be subject to discipline, up to and including suspension or expulsion.

All employees are forbidden from using school-issued cell phones while driving any vehicle at any time. Violation may result in disciplinary action up to and including termination.

7.14A – USE OF SCHOOL VEHICLES FOR BUSINESS AND PERSONAL USE

It is the policy of Riverview School District that school vehicles provided for employees be used **only** for school business as defined in this policy. Failure to comply with this policy may result in disciplinary action, up to and including termination.

The district may allow employees to drive school vehicles home at night and on weekends for convenience and/or security purposes. This may also be in case of emergencies that these employees may be called upon to handle.

The use of school vehicles is restricted to employees of the district only.

Non-employees such as spouses, children, other relatives, or friends are **not authorized** to drive company vehicles at any time. Transportation of family members is highly discouraged and should be limited to emergency situations.

Employees driving school vehicles are required to operate the vehicle in a safe manner. All traffic laws are to be obeyed. Any violation may be subject to restricted driving privileges, suspension of driving privileges or possible loss of employment.

Employees will be expected to park the vehicle in legal areas intended for such. They will be expected to lock and safeguard the vehicle in a prudent manner at all times. Damage to school property, theft of school property, or loss of school property resulting from failure to lock the school vehicle may result in the employee reimbursing the school for the actual cost of items damaged, lost, or stolen.

School vehicles will be expected to be kept clean and in working condition at all times. Employees are to notify the school immediately of any maintenance issues, as they arise.

The district will consider any unauthorized use of vehicles as the equivalent of theft and the driver may be held responsible for consequences of any accidents which occur outside the scope of employment and/or during non-business time. The employee shall follow standard district policy and procedure in the event of an accident, even when such accident occurs during non-business time and/or outside of the scope of employment.

Drivers must follow board policy concerning the use of school issued cell phones and electronic devices while driving, and the following guidelines for the use of personal electronic devices, including but not limited to cell phones, tablets, and mp3 players use while driving school issued vehicles:

1. Make driving your priority— you may be endangering yourself and others if you are using a mobile phone while driving.
2. Choose a phone with hands-free capabilities, but understand that while risk is diminished, it is not eliminated.
3. Pull to the side and put the vehicle in PARK to place your mobile phone call(s) or use a hands free mobile phone headset.
4. If you receive calls while driving, use a hands free headset and keep conversations as brief as possible. Reserve discussions that require complex thought or note-taking for your non-driving time.

The transportation of students is strictly prohibited unless otherwise specifically authorized by a school administrator in writing. The use and/or transportation of tobacco, alcohol, or drugs in a school owned vehicle is strictly prohibited. Violations shall lead to discipline, up to and including termination.

The taxable value of using a school vehicle to commute to work is \$1.50 each way, as determined by the IRS Commuting Value.

SUPERINTENDENT USE

In the case of the Superintendent, where a district vehicle may be provided for personal use beyond the policy above, the taxable value will be calculated as follows (see IRS guidelines):

Personal Mileage/Total Mileage = % of Personal Use

Annual Lease Value x % of Personal Use/12 months = monthly income attributed to car usage.

This may be pro-rated for daily rate by dividing the number of days used by 365

The Annual Lease Value does not include the value of fuel provided by the district. In cases where fuel is provided, the value of the fuel for personal usage will be included in the employee's income at a rate of 5.5 cents per mile. Fuel will be included in income based on personal miles reflected on the mileage logs.

7.15—RECORD RETENTION AND DESTRUCTION

It is necessary to maintain district records in a manner that provides for efficient document storage and retrieval and is conducive to eliminating unnecessary record retention. Due to the variety of records that may need to be retained and accessed, the superintendent shall ensure that all staff receive appropriate training to understand this policy. Staff shall also understand the possible ramifications to the district and/or themselves for failure to properly maintain records and follow the requirements contained in this policy.

Definitions

“Directly or directly interested” (hereinafter “directly”) means receiving compensation or other benefits personally or to an individual’s household from the person, business, or entity contracting with the District.

“Indirectly or indirectly interested” (hereinafter “indirectly”) means that a family member, business, or other entity in which the individual or a family member has a financial interest will receive compensation or benefits.

“Record” is defined for the purposes of this policy, as an item or items, whether electronic or material, that are created by, at the request of, or received by and purposefully retained by a board member, administrator, or employee in the ordinary course of District business. Examples include, but are not limited to:

- Any kind of correspondence;
- Calendars;
- Computer files and documents (which may include drafts);
- Telephone logs;
- Expense records;
- Audio or video recordings that are created for the purpose of monitoring the security of District property or the safety of District students;

 - An exemption granted by the Arkansas Department of Education (ADE) from the statutorily defined ethical restrictions associated with a contract for employment or for services provided for the District that involves a District administrator, board member, or employee.

The superintendent shall be responsible for establishing a schedule for the routine destruction of district records that accommodates the needs of the district. The schedule shall specify the length of retention for any records not specifically delineated by this policy and be distributed to staff on a need-to-know basis according to their respective employment duties and responsibilities. The schedule should accommodate the need for records to be stored as a blend of printed, bound and electronically recorded (e.g., audio tape, video tape, micro-fiche, computer disk) material. The superintendent or designee shall ensure the effective and efficient securing, cataloging, storing, and appropriate scheduled destruction of all records.

The following records categories shall be retained for the time specified.

Personnel files – forever

Student files – until the student receives a high school diploma or its equivalent, or is beyond the age of compulsory school attendance

Student records of attendance/graduation – forever

Financial Records – five (5) years

Documentation, including letters of approval, related to transactions or contracts for services covered by this policy and Arkansas statutes for Board members or members of their families or for waivers granted to District employees – thirteen (13) years

Documents filed with the IRS, including those required in Policy 7.23 – Health Care Coverage and the Affordable Care Act – four (4) years.

The superintendent or designee shall be responsible for determining when there is a need to interrupt the routine destruction of records. When the superintendent or designee makes the decision to cease the routine disposal of records, staff affected by the decision shall be promptly informed of the decision and of the nature of records that are to be retained. Such records shall be retained until the superintendent or designee has authorized their destruction. Employee training on the district's records retention schedule shall specifically include information on the records that may need to be retained due to pending disciplinary or legal actions which otherwise are subject to routine disposal. If an employee has doubt about the need to retain any record otherwise scheduled for destruction, he/she shall consult with the superintendent or designee prior to destroying such records.

The records' storage system devised by the superintendent and designee(s) shall be organized in a manner that enables the efficient retrieval of data and documents. The district shall have adequate backup of critical data which is stored electronically. The system shall be communicated to employees in a manner that enables them to understand and follow the system's requirements.

In retaining and destroying records, no employee shall:

- Destroy, alter, mutilate, conceal, cover up, falsify, or make a false entry in any record that may be connected to a disciplinary matter or lawsuit or to a matter within the jurisdiction of a federal or state agency, in violation of federal or state law or regulations.

Failure to follow the requirements set forth in this policy may result in disciplinary action against the employee(s), up to and including termination. The district's board of directors prohibits and will not tolerate any form of reprisal, retaliation or discrimination against any employee who, in good faith, has attempted to comply with this policy.

7.16—INFORMATION TECHNOLOGY SECURITY

The superintendent shall be responsible for ensuring the district has the necessary components in place to meet the district's needs and the state's requirements for information technology (IT) security. The district shall appoint an information technology security officer (ISO) who, along with other IT staff, the superintendent and district management appointed by the superintendent shall develop the necessary procedures to create a district-wide information technology security system meeting the requirements of this policy and the standards prescribed by the Arkansas Department of Education.

The IT security system shall contain the necessary components designed to accomplish the following.

1. Sensitive information shall be protected from improper denial, disclosure, or modification.
2. Physical access to computer facilities, data rooms, systems, networks and data will be limited to those authorized personnel who require access to perform assigned duties.
3. Traffic between internal (district) resources and external (Internet) entities will be regulated by network perimeter controls. To the extent technologically feasible, network transmission of sensitive data should enforce encryption.
4. User access to the district's technology system and its applications shall be based on the least amount of access to data and programs necessary to perform the user's job duties.
5. Student or financial applications software developed for or by the district will be tested prior to implementation to ensure data security through proper segregation of programs.
6. Monitoring of internal and external networks and systems will be designed to provide early notification of events and rapid response and recovery from IT related incidents and/or attacks.
7. Continuity of critical IT services will be ensured through the development of a disaster recovery plan appropriate for the size and complexity of the district's IT operations.
8. Software protection of servers and workstations will be deployed to identify and eradicate malicious software attacks such as viruses, spyware, and malware.

7.18 – DISPOSAL OF NON-NEGOTIATED CHECKS OR UNCLAIMED PROPERTY

State law specifies how the district is to dispose of retained funds in the form of issued but non-negotiated checks that have been not been presented for payment within one calendar year. The district shall dispose of these retained funds in accordance with the law and remit the amount of all non-negotiated checks to the Unclaimed Property Division of the Arkansas Auditor's Office.

The district shall make a good faith effort to return physical items that have been left on district property to their rightful owners. When contact information is known for the owner of an item of a non-perishable nature left at the district, the district shall use the information to attempt to contact the owner to inform him/her of the location of the item. Owners of such items shall be given at least three weeks to pick up the item he/she left at the district. If the owner fails to pick up the item within the time allotted, the district may dispose of the item in a manner of its choosing.

The district is under no obligation to retain an abandoned, perishable item left on district property.

7.19—SERVICE ANIMALS IN DISTRICT FACILITIES

In accordance with the provisions of the Americans with Disabilities Act, service dogs and trained miniature horses (hereinafter referred to as *service animals*) are permitted for use by individuals with disabilities on district property and in district facilities provided the individuals and their animals meet the requirements and responsibilities covered in this policy.

When an individual with a disability seeks to bring a service animal into a district facility, the district is entitled to ask the individual if the animal is required because of a disability and what work or task the animal has been trained to perform. The district is not entitled to ask for documentation that the animal has been properly trained, but the individual bringing the animal into a district facility will be held accountable for the animal's behavior.

Any service animal brought into a district facility by an individual with a disability must have been trained to do work or perform tasks for the individual. The work or tasks performed by the service animal must be directly related to the handler's disability. Examples of work or tasks include, but are not limited to, assisting individuals who are blind or have low vision with navigation and other tasks, alerting individuals who are deaf or hard of hearing to the presence of people or sounds, providing non-violent protection, pulling a wheelchair, assisting an individual during a seizure, alerting individuals to the presence of allergens, retrieving items such as medicine, providing physical support and assistance with balance and stability to individuals with mobility disabilities, and helping persons with psychiatric and neurological disabilities by preventing or interrupting impulsive or destructive behaviors.

The crime deterrent effects of an animal's presence and the provision of emotional support, well-being, comfort, or companionship do **not** constitute work or tasks for the purposes of this policy.

Individuals with disabilities shall be permitted to be accompanied by their service animals in all areas of a public entity's facilities where members of the public, participants in services, programs or activities, or invitees, as relevant, are allowed to go.

A service animal shall be under the control of its handler. A service animal shall have a harness, leash, or other tether, unless either the handler is unable because of a disability to use a harness, leash, or other tether, or the use of a harness, leash, or other tether would interfere with the service animal's safe, effective performance of work or tasks, in which case the service animal must be otherwise under the handler's control by means of voice control, signals, or other effective means.

District staff may ask an individual with a disability to remove a service animal from the premises if:

- (1) The animal is out of control and the animal's handler does not take effective action to control it; or
- (2) The animal is not housebroken.

If the district excludes a service animal due to the reasons listed above, the district shall give the individual with a disability the opportunity to participate in the service, program, or activity without having the service animal on the premises.

The District and its staff are not responsible for the care or supervision of a service animal brought onto district property or into district facilities by an individual with a disability.

The District shall not ask or require an individual with a disability to pay a surcharge, even if people accompanied by pets are required to pay fees, or to comply with other requirements generally not applicable to people without pets.

Any electronic transfer of funds must be initiated by the District and authorized in writing by both the Disbursing Officer of the school district Board of Directors and the Superintendent.

For the purposes of this policy, "initiated by the District" means the District controls both the timing and the amount of the funds transfer.

The district treasurer shall maintain evidence of authority for the disbursement in the form of invoices, payrolls that conform with written contracts on file in his/her office, or other appropriate documentation indicating an authority to disburse District funds.

"Other appropriate documentation" includes one-time, signed authorization for recurring transactions. The Board of Directors Disbursing Officer must pre-authorize the electronic transfer of funds for non-recurring transactions which can be accomplished by a signed authorization or an email authorizing such a disbursement of funds.
