## District Testing Presentation 2019

NJSLA, DLM, and ACCESS

Test Results, Comparisons, and Action Steps

## Overview

- Spring 2019 Assessments
- NJSLA and DLM for English Language Arts and Mathematics
- NJSLA and DLM for Science (not reported)
- ACCESS results for English Language Learners
- Analyses
- Cohort trends and historic results over time
- Subgroup performance
- Areas of need and actions to meet that need

## Overview of Assessments

|  | NJSLA | DLM | ACCESS |
| :---: | :---: | :---: | :---: |
| Subjects | - English Language Arts <br> - Mathematics <br> - Science (not reported) | - English Language Arts <br> - Mathematics <br> - Science (not reported) | - English Language Arts (Listening, Speaking, Reading, Writing) |
| Standards | NJSLS | NJSLS | WIDA English Language Development Standards |
| Who <br> Takes? | Eligible students in grades 3-10 | Students in grades 3-8 and 11 with significant intellectual disabilities | Students identified as English Language Learners |

## ACCESS for ELLs

English Language Proficiency

## ACCESS for ELLs Overview

- Who takes it?
- Students in K-12 identified as English language learners (ELLs)
- Why is it required?
- Meets federal requirements of the Every Student Succeeds Act (ESSA) for annual monitoring and reporting progress toward English language proficiency
- What does it test?
- WIDA English Language Development Standards in four domains: Listening, Speaking, Reading and Writing

## ELLs in Madison Public Schools

- Staffing and Services (K-5)
- One ESL-certified teacher at each elementary school
- Students in grades K-5 receive a hybrid of pull out and push in support
- Staffing and Services (6-12)
- One ESL teacher split between MJS and MHS
- Students in grades 6-12 receive "high intensity" instruction (2x/day)
- Students
- MPS currently has 75 ELLs in district with 11 different home languages
- Nearly $2 / 3$ of district ELLs are native Spanish speakers

## ACCESS for ELLs Data

- Scoring
- ACCESS is evaluated on a six-level rubric: 1-Entering, 2-Emerging, 3-Developing, 4-Expanding, 5-Bridging, 6 -Reaching. Score of 4.5 is required to be exited.
- Annual Yearly Progress
- The district met its Annual Yearly Progress (AYP) (growth of 0.5 year to year) under ESSA during the 2017-18 school year. 2018-19 data is not yet available.
- Exiting
- In Spring 2019, 13 students passed ACCESS and were exited from the ESL program

## Dynamic Learning Maps (DLM)

English Language Arts and Mathematics

## DLM Overview

- Who takes it?
- Students in grades 3-8 and grade 11 with the "most significant intellectual disabilities"
- Why is it required?
- DLM fits into the state regulations as an alternate assessment to the NJSLA.
- What does it test?
- New Jersey State Learning Standards in English Language Arts, Mathematics, and Science. Science results have not yet been made available to districts.

## DLM Data

- Population
- MPS had 16 students eligible to take the DLM during Spring 2019
- Scoring
- DLM is evaluated on a four-level rubric: 1-Emerging, 2-Approaching Target, 3-At Target, 4-Advanced. Score of 3 or 4 is considered "passing".
- In Spring 2019 testing, 8 students earned passing scores on the DLM, 5 earned a score of "Approaching Target", and 3 earned a score of "Emerging"
- Next Steps
- Staff will continue to work with students as defined by their IEP needs

## New Jersey Student Learning Assessments (NJSLA)

English Language Arts and Mathematics

## NJSLA Overview

- Who takes it?
- ELA grades 3-10; Mathematics grades 3-8, Algebra 1, Geometry, and Algebra 2
- Why is it required?
- NJSLA meets the state regulations regarding standardized testing
- What does it test?
- NJSLS in English Language Arts, Mathematics, and Science (scores not yet available)
- Note: Although NJSLA \& PARCC use the same scale, scores may not be comparable. The State of the Schools Address will contain additional comparative district data.

## Results and Trends

Measures that indicate potential progress or reasons to celebrate

## Results and Trends

- MPS demonstrates consistently high passing rates in aggregate
- The majority of remaining students are "Approaching Expectations"
- Trends seem to indicate positive growth over time
- Performance improvements can be seen across many assessments
- Cohort performance remains strong from 3rd grade to 10th grade*
- Trends among many student groups show improvement
- Students with IEP's show apparent improvements across Math and ELA
- Other areas also show growth
*Note: Cohort performance is not a perfect measure due to variations between assessments, but does provide useful information regarding how students are able to perform on each test.

## Results and Trends

## Spring 2019 Assessment Results

- Overall passing rates with distribution of students at "Approaching Expectations"

| Mathematics <br> Assessment | Passing <br> (Level 4 or 5) | Approaching <br> (Level 3) | Other <br> (Level 2 or 1) |
| :---: | :---: | :---: | :---: |
| Grade 3 | $70 \%$ | $17 \%$ | $13 \%$ |
| Grade 4 | $69 \%$ | $20 \%$ | $11 \%$ |
| Grade 5 | $72 \%$ | $21 \%$ | $7 \%$ |
| Grade 6 | $73 \%$ | $18 \%$ | $9 \%$ |
| Grade 7 | $75 \%$ | $16 \%$ | $9 \%$ |
| Grade 8* | $61 \%$ | $20 \%$ | $19 \%$ |
| Algebra 1 | $75 \%$ | $14 \%$ | $11 \%$ |
| Geometry | $51 \%$ | $32 \%$ | $17 \%$ |
| Algebra 2 | $77 \%$ | $17 \%$ | $6 \%$ |

| ELA |  |  |  |
| :---: | :---: | :---: | :---: |
| Assessment | Passing <br> (Level 4 or 5) | Approaching <br> (Level 3) | Other <br> (Level 2 or 1) |
| Grade 3 | $71 \%$ | $19 \%$ | $10 \%$ |$⿻$| Grade 4 | $74 \%$ | $21 \%$ |
| :---: | :---: | :---: |
| Grade 5 | $77 \%$ | $16 \%$ |
| Grade 6 | $72 \%$ | $20 \%$ |
| Grade 7 | $86 \%$ | $11 \%$ |
| Grade 8 | $81 \%$ | $10 \%$ |
| Grade 9 | $74 \%$ | $17 \%$ |
| Grade 10 | $77 \%$ | $17 \%$ |
| Grade $11^{* *}$ | $\mathrm{n} / \mathrm{a}$ | $\mathrm{n} / \mathrm{a}$ |

## Results and Trends

## Assessment Results Over Time

- Percent of students who met or exceeded proficiency over a 5-year period

| Mathematics |  |  |  |  |  |
| :--- | :--- | :--- | :--- | :--- | :--- |
|  | 2015 | 2016 | 2017 | 2018 | 2019 |
| Grade 3 | $59 \%$ | $62 \%$ | $70 \%$ | $67 \%$ | $70 \%$ |
| Grade 4 | $61 \%$ | $61 \%$ | $66 \%$ | $67 \%$ | $69 \%$ |
| Grade 5 | $62 \%$ | $71 \%$ | $68 \%$ | $67 \%$ | $72 \%$ |
| Grade 6 | $68 \%$ | $69 \%$ | $67 \%$ | $73 \%$ | $73 \%$ |
| Grade 7 | $75 \%$ | $71 \%$ | $74 \%$ | $73 \%$ | $75 \%$ |
| Grade 8 | $15 \%$ | $37 \%$ | $45 \%$ | $59 \%$ | $61 \%$ |
| Algebra 1 | $67 \%$ | $78 \%$ | $75 \%$ | $81 \%$ | $75 \%$ |
| Geometry | $44 \%$ | $47 \%$ | $59 \%$ | $74 \%$ | $51 \%$ |
| Algebra 2 | $60 \%$ | $59 \%$ | $53 \%$ | $55 \%$ | $77 \%$ |

| English Language Arts |  |  |  |  |  |
| :--- | :--- | :--- | :--- | :--- | :--- |
|  | 2015 | 2016 | 2017 | 2018 | 2019 |
| Grade 3 | $68 \%$ | $57 \%$ | $72 \%$ | $77 \%$ | $71 \%$ |
| Grade 4 | $74 \%$ | $73 \%$ | $70 \%$ | $73 \%$ | $74 \%$ |
| Grade 5 | $70 \%$ | $75 \%$ | $82 \%$ | $75 \%$ | $77 \%$ |
| Grade 6 | $72 \%$ | $77 \%$ | $79 \%$ | $82 \%$ | $72 \%$ |
| Grade 7 | $82 \%$ | $81 \%$ | $84 \%$ | $87 \%$ | $86 \%$ |
| Grade 8 | $83 \%$ | $83 \%$ | $85 \%$ | $82 \%$ | $81 \%$ |
| Grade 9 | $54 \%$ | $67 \%$ | $81 \%$ | $80 \%$ | $74 \%$ |
| Grade 10 | $55 \%$ | $53 \%$ | $67 \%$ | $76 \%$ | $77 \%$ |
| Grade 11 | $56 \%$ | $47 \%$ | $60 \%$ | $66 \%$ | $\mathrm{n} \%$ |

## Results and Trends

## Cohort Results in Mathematics

- Performance results for specific groups of students over time

## Results and Trends

## Cohort Results in ELA

- Performance results for specific groups of students over time

Cohort Analysis ELA Class of 2025

(Current 7th Grade Students)

## Results and Trends

## Score Comparisons Based on Classification

- Scale score averages of students with IEP's vs. students without IEP's

Mathematics 2017-2019
Special Education Scale Score Comparisons

ELA 2017-2019
Special Education Scale Score Comparisons

## Areas of Focus

Performance measures that may require further inquiry

## Areas of Focus

- Student scores on the $3^{\text {rd }}$ grade assessment are below the scores of some other grade-level assessments
- Students in grades K-2 do not take NJSLA, so this is the first tested grade level for the state standardized test
- Outcomes for students in certain subgroups are not as strong as those in comparative groups
- Subgroups of race, socioeconomic status, and gender were examined

## Scores in Grade 3

## Data Overview

- Percent of students who met or exceeded proficiency over a 5 -year period

| Mathematics |  |  |  |  |  |
| :--- | :--- | :--- | :--- | :--- | :--- |
|  | 2015 | 2016 | 2017 | 2018 | 2019 |
| Grade 3 | $59 \%$ | $62 \%$ | $70 \%$ | $67 \%$ | $70 \%$ |
| Grade 4 | $61 \%$ | $61 \%$ | $66 \%$ | $67 \%$ | $69 \%$ |
| Grade 5 | $62 \%$ | $71 \%$ | $68 \%$ | $67 \%$ | $72 \%$ |

## Scores in Grade 3

## Tools Used to Address Potential Improvement

- Teacher Collaboration and Articulation
- Time for staff to work on curriculum and pedagogical framework
- Instructional Coach support to align practices across the schools
- Star Assessment Implementation
- Opportunities to prepare students for the rigors of standardized testing
- Data analysis to monitor progress and guide necessary interventions
- Curriculum Updates
- K-5 Math curriculum revised for 2019-20 with improved focuses on building inquiry
- New K-5 ELA aligned resources will provide clarity and consistency across all schools

## Scores in Grade 3 <br> Action Steps

- Use school-based professional learning communities and data teams to collaborate regarding areas of focus and specific needs
- Provide district-wide professional development with instructional coach support to ensure coherence across each of the three elementary schools
- Monitor data from mathematics unit exams, feedback regarding new ELA resources, and the Star assessment to improve practices
- Review feedback from grade 4 teachers regarding student strengths and areas in need of additional support

## Subgroup Comparisons Socioeconomics Data Overview

- Scale averages of economically disadvantaged vs. non-economically disadvantaged students

Mathematics 2017-2019
Economically Disadvantaged Scale Comparisons

ELA 2017-2019
Economically Disadvantaged Scale Comparisons

## Subgroup Comparisons Race Data Overview

- Scale averages of Black and Hispanic students vs. students of other races

Mathematics 2017-2019
Race Scale Score Comparisons

ELA 2017-2019
Race Scale Score Comparisons

## Subgroup Comparisons <br> Gender Data Overview

- Scale averages of male students vs. female students

Mathematics 2017-2019
Gender Scale Score Comparisons

ELA 2017-2019
Gender Scale Score Comparisons

## Subgroup Comparisons <br> Tools Used to Address Potential Improvement

- Teacher Collaboration and Articulation
- Supports for differentiation, intervention, and engagement within the classroom
- Assessment and Data Tracking Improvements
- Use of Star, benchmarking, and other assessments allows to improve data tracking
- Title I supports
- Opportunities at CAS and MJS for students who need additional academic supports
- Focus on social/emotional well-being and character education
- Promote diversity and inclusivity to ensure that students are comfortable in school

## Subgroup Comparisons <br> Action Steps

- Use school-based professional learning communities to identify strategies and professional development opportunities regarding improving engagement and outcomes for students in identified subgroups
- Improve I\&RS processes to identify students who are potentially at risk
- Use Title I funds at CAS and MJS to support struggling learners
- Improve family outreach to enhance the partnership regarding addressing student outcomes
- Improve articulation of SEL programs throughout the district

## Closing

- Results indicate that the district has areas to celebrate and areas that require further focus
- State of the Schools Address will contain additional analysis and comparative district data
- Progress monitoring will be ongoing and reported to the Board and community
- All metrics related to prominent rankings systems will continue to be explored
- As we tell our students and staff, reflection is the key to growth. We will continue to reflect on our practices and processes to ensure the success of all of our students.

## Questions?
