April 3, 2020

Tecumseh Parents,

Good evening. I hope that you and your family are safe and well in the midst of the COVID-19 Pandemic. I wanted to reach out to you to make you aware of the plans that are in place to ensure that our students will be able to continue their education through the end of the school year.

On Monday, April 6<sup>th</sup>, Tecumseh Schools will begin to provide a Distance Learning Plan to our students at every grade level. The Distance Learning Plan can be found on our school website at [www.tecumseh.k12.ok.us](http://www.tecumseh.k12.ok.us). Your child's teachers have been working hard over the last week to put together an instructional plan that is designed to strengthen skills previously taught and provide opportunities for enrichment to help develop the building blocks for next year.

We encourage your participation in this new educational experience to help your child excel in this new adventure. By setting expectations and talking to your child about each lesson, it will help them understand the importance that education plays in their future.

While we know there are obstacles with internet access in some areas, we have worked to put together a plan to deliver packets of information through our bus routes so that we can ensure that all students have an opportunity to participate and to be successful.

We will continue to provide our students with both breakfast and lunch each weekday through our Child Nutrition Program. This program will continue to the end of the school year. Yesterday we served over 900 meals to students throughout the district. If you have not participated in the breakfast and lunch program, you may contact us at (405) 598-3739 to ensure we get the meals to your children.

As we begin the Distance Learning Plan together, please let us know of any difficulties you are experiencing so that we may help your child, our students be successful.

Thank you for your continued support.

Sincerely,

Tom Wilsie  
Superintendent, Tecumseh Public Schools
