## CLASS DESCRIPTIONS

### Initial Certification Class:

This is a de-escalation program adopted by the Marysville School District for staff working in situations where escalated student behavior may exist. The Initial Course is intended for those who have not previously been certified in Right Response or whose certification has lapsed and cannot take the recertification course. Certification is valid for one (1) year from the first date of the completed course.

### Recertification Class:

This course is intended to recertify those who have been previously certified through the Initial course. In order to renew your certification, this course must be taken within 90 days after your certification expires. After this period, the Recertification Course cannot be taken to renew your certification; the Initial Course must be re-taken.

## **RIGHT RESPONSE FACTS!**

- 1) The Right Response classes are open to any current employee or substitute in the Marysville School District that wishes to attend. However, only Para 2s, Bus Paras and Security personnel are required to be Right Response certified as per their contract. Therefore, only those that fall within these classifications will be paid extra hours for attending Right Response courses.
- 2) Those who are required to be Right Response certified (as described above) must maintain their certification to continue in their positions. It is the employee's responsibility to be aware of their expiration dates and to sign up for a Recertification course to maintain their certification.
- 3) Employees may not sign up for a Recertification course that occurs more than ninety (90) days prior to the expiration date of their Right Response certification. Employees have ninety (90) days from expiration date to take a Recertification course.
- 4) Due to limited class space, attendees may not come to class without signing up first. To attend a class, you must sign-up by contacting Sue Shea either by e-mail or by phone (x20109).
- 5) If an employee who is required to be Right Response certified misses the last Recertification course available within their grace period, they must take the next initial course to maintain their certification and continue in their position. If this occurs, however, the employee will only be paid up to eight (8) extra hours to take the initial course as this is the amount of time it would have taken to attend the Recertification course.
