

Hi everyone! Tomorrow we start week 2 of Remote Learning!

I will be posting assignments in the morning! Like last week, there is assigned work in Dreambox, KHAN Academy and Written work(to be posted on google classroom when completed!

Remember, ALL Directions, and log-in information, will be posted in Google Classroom!

NEW this week!: To enhance communication and provide additional support in math, I am planning to run OPTIONAL virtual, office hours on Google Meets.... Your child does not have to participate (it's up to them).....

It's for people who need help and want to check in with me face to face(virtually). This is a time to work out a specific problem or ask if work being done is on the right track.

The office hours I plan to try this week are:

Monday: 1:00-2:00 pm(Any of my Katahdin math students)

Tuesday: 1:00-2:00 pm(6th Grade Math Focus)

Wednesday:1:00-2:00 pm(7th Grade Math Focus)

Thursday:1:00-2:00 pm(8th Grade Math Focus)

\*\*\*NOTE: I will be sending out the log-in, "Nickname" and link for each office hour. about 10 mins before the meeting opens to students on Google Classroom(as I want to keep the virtual room monitored and to "be there" when kids log in. Students can also continue to email questions throughout the day-as I can provide help and answer questions even if I'm in staff meetings, or working on curriculum, correcting, etc.

Thanks for all of the support you are providing from home - and I greatly appreciate the feedback many parents gave on the Week 1 survey. Overall, the feedback was very positive and it appears Week 1 of Remote learning went well for the majority of our students. I am hoping my, "optional office hours" will provide another level of support for your child and reduce struggle, while increasing connection(with me) and subsequent success in Math. Have a wonderful week- Stay safe!

Best,

Sherri.
