School/Community Relations

Community Involvement in Decision Making

The Board of Education recognizes that many residents of the District may be especially qualified to take an active part in school affairs because of their training, experience, or personal characteristics and encourages them to take an active part in school affairs. Residents may assist by donating labor, money or material items. All individual or group efforts shall be coordinated through the Superintendent.

The Board shall give substantial weight to the advice it receives from individuals and community groups interested in the District's schools, but shall use its own judgment in arriving at decisions.
