Schedule Explanation

First of all, the hours for the classes represent one of two things:

- 1) If a teacher provides a live virtual opportunity for a class, he or she will schedule it during the provided time. Not all teachers may utilize Zoom, but if they do, students will not have conflicts with this schedule in place.
- 2) This will be a chance to connect with a teacher through one of the platforms, emails, or phone calls.

Please keep in mind it is not required that the student complete the work during those specific times. It can be done at any point during the day or night.

The general expectation is that no more than three hours of work will be assigned on any given day. The three-hour time limit includes participation opportunities provided by teachers. If your child is taking college classes, this expectation does not apply.
