

FOR IMMEDIATE RELEASE

APRIL 9, 2020

---

This afternoon Missouri Governor, Mike Parsons, ordered all Missouri public and charter schools to remain closed through the remainder of the academic year. We are sad about this news, but understand the importance of the Governors decision and support him and his administration in doing our part to keep students, staff and community safe.

We understand there are many questions regarding the decision to keep schools closed for the balance of the school year and the District will prepare further information to share with our school-community once our district leadership team convenes after the Easter Holiday.
