We have created a five-day plan to help with time management and consistency for students. We want all families to do what is best for them, understanding that students are not expected to spend more than 20 minutes per day per subject.

We have chosen to focus on one Scholastic article per day, but there are many more available. Students are always welcome to explore beyond the one article that they are assigned. Just follow this link to access other daily articles, activities, and videos:

<https://classroommagazines.scholastic.com/support/learnathome/grades-3-5.html>

In addition to completing the above activities, students are encouraged to read independently for 20 minutes each day. During our distance learning, students are allowed to take AR tests at home, but are encouraged to take the test independently.
