Independent Auditors' Report

The Board of Education
Cross County School District No. 7
Cross County, Arkansas

Report on the Financial Statements

We have audited the accompanying financial statements of each major governmental fund and the aggregate remaining fund information of Cross County School District No. 7 as of and for the year ended June 30, 2019, and the related notes to the financial statements, which collectively comprise the Cross County School District No. 7's regulatory basis financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with the financial reporting provisions of Ark. Code Ann. § 10-4-413 (c) as provided in Act 2201 of 2005, as described in Note 1, to meet the requirements of the State of Arkansas. This includes determining that the regulatory basis of accounting is an acceptable basis for the preparation of the financial statements in the circumstances. Management is also responsible for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditors' Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Basis for Adverse Opinion on U.S. Generally Accepted Accounting Principles

As described in Note 1, the financial statements are prepared by Cross County School District No. 7, on the basis of the financial reporting provisions of Ark. Code Ann. § 10-4-413 (c) as provided in Act 2201 of 2005, which is a basis of accounting other than accounting principles generally accepted in the United States of America, to meet the requirements of the State of Arkansas.

The effects on the financial statements of the variances between the regulatory basis of accounting described in Note 1 and accounting principles generally accepted in the United States of America, although not reasonably determinable, are presumed to be material.

Adverse Opinion on U.S. Generally Accepted Accounting Principles

In our opinion, because of the significance of the matter discussed in the “Basis for Adverse Opinion on U.S. Generally Accepted Accounting Principles” paragraph, the financial statements referred to above do not present fairly, in accordance with accounting principles generally accepted in the United States of America, the respective financial position of the governmental activities, each major fund, and the aggregate remaining fund information of Cross County School District No. 7, as of June 30, 2019, or changes in financial position thereof for the year then ended.

Opinion on Regulatory Basis of Accounting

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of each major governmental fund and the aggregate remaining fund information of Cross County School District No. 7 as of June 30, 2019, and the respective changes in financial position thereof and the respective budgetary comparison for the general and special revenue funds for the year then ended, on the regulatory basis of accounting described in Note 1.

Other Matters

Other Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise Cross County School District No. 7’s regulatory basis financial statements. The schedules of capital assets and billable units are presented for purposes of additional analysis and are not a required part of the regulatory basis financial statements. The schedule of expenditures of federal awards is presented for purposes of additional analysis as required by Title 2 U.S. Code of Federal Regulations (CFR) Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards*, and is also not a required part of the regulatory basis financial statements.

The schedules of capital assets, billable units, and the schedule of expenditures of federal awards are the responsibility of management and were derived from and relate directly to the underlying accounting and other records used to prepare the regulatory basis financial statements. Such information has been subjected to the auditing procedures applied in the audit of the regulatory basis financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the regulatory basis financial statements or to the regulatory basis financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the schedules of capital assets, billable units, and the schedule of expenditures of federal awards are fairly stated in all material respects in relation to the regulatory basis financial statements as a whole.

Other Reporting Required by *Government Auditing Standards*

In accordance with *Government Auditing Standards*, we have also issued our report dated March 17, 2020, on our consideration of Cross County School District No. 7's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the Cross County School District No. 7's internal control over financial reporting and compliance.

CROSS COUNTY SCHOOL DISTRICT NO. 7
NOTES TO FINANCIAL STATEMENTS
FOR THE YEAR ENDED JUNE 30, 2019

NOTE 1: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

A. Reporting Entity

The Board of Education, a group of seven (7) permanent members, is the level of government which has governing responsibilities over all activities related to public elementary and secondary school education within the jurisdiction of the Cross County School District No. 7 (the District). The Board receives funding from local, state and federal government sources and must comply with the concomitant requirements of these funding source entities. However, the Board of Education is not included in any other governmental "reporting entity", since Board members are elected by the public and have decision making authority, the power to designate management, the responsibility to significantly influence operations, and primary accountability for fiscal matters.

Only the accounts of the Cross County School District No. 7 are included in these statements, and there are no component units that are or should be included in the District's reporting entity.

B. Basis of Presentation

(1) Regulatory Basis of Presentation

The financial statements are prepared in accordance with a regulatory basis of accounting. This basis of accounting is prescribed by Arkansas Code Annotated 10-4-413(c), as provided in Act 2201 of 2005, and requires that financial statements be presented on a fund basis with, at a minimum, the general fund and special revenue fund presented separately and all other funds included in the audit presented in the aggregate. The law also stipulates that the financial statements consist of a balance sheet; a statement of revenues, expenditures, and changes in fund balances; a comparison of the final adopted budget to the actual expenditures for the general fund and special revenue funds of the entity; notes to the financial statements; and a supplemental schedule of capital assets, including land, buildings, and equipment. The law further stipulates that the State Board of Education shall promulgate the rules necessary to administer the regulatory basis of presentation.

NOTE 1: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

B. Basis of Presentation (Continued)

(1) Regulatory Basis of Presentation (Continued)

The regulatory basis of accounting differs from the accounting principles generally accepted in the United States of America (GAAP). GAAP requires that basic financial statements, in addition to presenting entity-wide financial statements, incorporate the following: Management's Discussion and Analysis, separate financial statements for fiduciary fund types, separate identification of special and extraordinary items, capital assets, other non-financial assets and long-term liabilities, specific procedures for the identification of major governmental funds and applicable note disclosures. The prescribed regulatory basis does not require these statements and concepts, nor does it generally adhere to or address pronouncements of the Governmental Accounting Standards Board (GASB).

The accompanying financial statements are presented on a fund basis. A fund is defined as a fiscal and accounting entity with a self-balancing set of accounts, which are segregated for purposes of recording specific activities or attaining certain objectives. Revenues are reported by major sources and expenditures are reported by major function. Other transactions, which are not reported as revenues or expenditures, are reported as other financial sources and uses.

C. Fund Accounting

Fund accounting focuses on the sources, uses, and balances of current financial resources. Expendable assets are assigned to the various governmental funds according to the purposes for which they are to be used. Current liabilities are assigned to the fund from which they will be paid. The difference between governmental fund assets and liabilities is reported as fund balance. The following are the District's major governmental funds as prescribed under the regulatory basis:

(1) General Fund

The General Fund is the operating fund of the District and is used to account for all financial resources except those required to be accounted for in another fund. The General Fund balance is available to the District for any purpose provided it is expended or transferred according to the general laws of Arkansas.

NOTES TO FINANCIAL STATEMENTS
FOR THE YEAR ENDED JUNE 30, 2019

NOTE 1: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

C. Fund Accounting (Continued)

(2) Special Revenue Fund

The Special Revenue Fund is used to account for specific revenue sources which are designated by law or contractual agreement for specified functions or activities and are legally required to be accounted for in separate funds.

(3) Other Governmental Funds

Other governmental funds consist of (a) the debt service fund, which is used for accumulation of resources for payment of principal, interest and related costs on general long-term debt; and (b) the capital outlay fund, which receives property taxes designated for maintenance of existing District facilities and for capital outlay.

(4) Fiduciary Funds

Fiduciary fund reporting focuses on net assets and changes in net assets. The fiduciary fund category is made up of agency funds. Trust funds are used to account for assets held by the District under a trust agreement for individuals, private organizations, or other governments and are therefore not available to support the District's own programs. The agency fund is custodial in nature (assets equal liabilities) and does not involve measurements of results of operations. The District's agency fund accounts for those student activity programs which have student participation in the activity and have students involved in the management of the program. This fund typically includes those student activities which consist of a student body, student president, student treasurer, and faculty advisor.

FOR THE YEAR ENDED JUNE 30, 2019

NOTE 1: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

D. Regulatory Basis of Accounting / Measurement Focus

Basis of accounting determines when transactions are recorded in the financial records and reported on the financial statements. Governmental funds use the modified accrual basis of accounting. Fiduciary funds also use the accrual basis of accounting. The regulatory basis financial statements are prepared using a current financial resources measurement focus and the modified accrual basis of accounting, with some exception. With the exception of property taxes, revenues are recognized when susceptible to accrual, i.e. both measurable and available. Available means collectible within the current period or soon enough thereafter to pay current liabilities.

With the exception of property taxes, the District considers revenues to be available if they are collected within 60 days after the end of the current fiscal period. State and federal grants and interest associated with the current fiscal period are all considered to be susceptible to accrual.

(1) Revenue-Exchange and Non-exchange Transactions

Revenue resulting from exchange transactions, in which each party gives and receives essentially equal value, is recorded on the accrual basis when the exchange takes place. On a modified accrual basis, revenue is recorded in the fiscal year in which the resources will be collected within the current fiscal year or are expected to be collected soon enough thereafter to be used to pay liabilities of the current fiscal year.

Non-exchange transactions, in which the District receives value without directly giving equal value in return, include property taxes, grants, entitlements and donations.

CROSS COUNTY SCHOOL DISTRICT NO. 7
NOTES TO FINANCIAL STATEMENTS
FOR THE YEAR ENDED JUNE 30, 2019

NOTE 1: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

D. Regulatory Basis of Accounting / Measurement Focus (Continued)

Revenue from grants, entitlements and donations is recognized in the fiscal year in which all eligibility requirements have been satisfied. Eligibility requirements include timing requirements, which specify the year when the resources are required to be used or the fiscal year when use is first permitted, matching requirements, in which the District must provide local resources to be used for a specified purpose, and expenditure requirements, in which the resources are provided to the District on a reimbursement basis. On a modified accrual basis, revenue from the non-exchange transactions must also be available before it can be recognized. Under the modified accrual basis, the following revenue sources are considered to be both measurable and available at fiscal year-end: property taxes available as an advance, interest, grants, and student fees.

(2) Deferred Revenue

Deferred revenue arises when assets are recognized before revenue recognition criteria have been satisfied. Grants and entitlements received before the eligibility requirements are met are also recorded as deferred revenue. On governmental fund financial statements, there is no deferred revenue.

(3) Expenses/Expenditures

Expenditures are recorded when the liability is incurred, except for claims, compensated absences, and interest on long-term debt, which are not recorded until paid. Proceeds from issuance of long-term debt are recognized when received and payment of long-term debt principal is reported as an expenditure when paid.

E. Investments

The District's investments consist solely of certificates of deposit reported at historical cost, which approximates fair value.

NOTE 1: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

F. Property Taxes

Property taxes are levied in November based on property assessments made between January 1st, and May 31st, and are an enforceable lien on January 1st for real property and June 1st for personal property. The taxes are payable between January and October 10th of the following year and are considered delinquent after October 10th.

Property taxes shall be accrued or deferred, as applicable, in accordance with guidelines issued by the Arkansas Department of Education (ADE). Arkansas law defines revenue receipts of a school district as actual proceeds of local taxes collected during the current fiscal year.

Amendment No. 74 to the Arkansas Constitution established a uniform minimum property tax millage rate of 25 mills for maintenance and operation of public schools. Arkansas Code Annotated § 26-80-101 provides the uniform rate of tax (URT) shall be assessed and collected in the same manner as other school property taxes, but the net revenues from the URT shall be remitted to the State Treasurer and distributed by the State to the county treasurer of each county for distribution to the school districts in that county. For report purposes, URT revenues are considered property taxes.

G. Prepaid Items

Payments made to vendors for services that will benefit periods beyond June 30, 2019, are recorded as prepaid items using the consumption method. A current asset for the prepaid amount is recorded at the time of the purchase and an expenditure/expense is reported in the year in which services are consumed.

H. Capital Assets

Capital asset purchases are recorded as expenditures at the time of purchase and depreciation is not recognized. Information on capital assets and related depreciation is reported in the schedule of capital assets. For this schedule, capital assets are capitalized at historical cost or estimated historical cost.

NOTE 1: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

I. Accrued Liabilities and Long-term Obligations

In general, payables and accrued liabilities that, once incurred, are paid in a timely manner and in full from current financial resources, are reported as obligations of the governmental funds. However, compensated absences, interest, and contractually required pension contributions that will be paid from governmental funds are reported as a liability in the fund financial statements only to the extent that they are due for payment during the current fiscal year.

J. Fund Balance Reserves

The District reserves those portions of fund equity which are legally segregated for a specific future use or which do not represent available expendable resources and therefore are not available for appropriation or expenditure. Unreserved fund balance indicates that portion of fund equity which is available for appropriation in future periods. Reserved fund balances represent that portion of the fund balance which is not appropriable for expenditure or is legally segregated for a specific future use.

K. Fund Designations

Fund balance designations may be established to indicate tentative planned expenditures of financial resources. The designation reflects the District's intentions and is subject to change. Designations are reported as part of unreserved fund balance. Designations represent amounts set-aside for budget stabilization which exceeds the statutory required amount.

L. Interfund Activity

Exchange transactions between funds are reported as revenues in the seller funds and as expenditures/expenses in the purchaser funds. Flows of cash or goods from one fund to another without a requirement for repayment are reported as interfund transfers. Interfund transfers are reported as other financing sources/uses in governmental funds. Repayments from funds responsible for particular expenditures/expenses to the funds that initially paid for them are not presented on the financial statements.

M. Estimates

The preparation of the financial statements in conformity with the regulatory basis of accounting requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Actual results may differ from those estimates.

NOTE 1: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

N. Budget and Budgetary Accounting

The District is required by Arkansas State Law to prepare an annual budget approved by the School Board and submitted to the Arkansas Department of Education by September 15 of the current fiscal year. The annual budget is prepared on the regulatory basis of accounting. The District does not prepare and submit amended budgets during the fiscal year to the Department of Education.

NOTE 2: CASH AND INVESTMENTS

Arkansas statutes allow each local district the right to determine the depositories in which to deposit district funds and the amounts and type of investments in which to invest District funds, provided however, that investments are limited specifically to bonds or notes of the United States of America, general obligation bonds of the State of Arkansas or bank certificates of deposit. At June 30, 2019, the District's cash consisted of demand deposits at two local depository banks. The District did not have any investments.

Custodial credit risk is the risk that in the event of a bank failure, a government's deposits may not be returned to it. The District's deposit policy for custodial credit risk requires compliance with the provisions of state law. Arkansas law requires collateralization of all deposits with federal depository insurance (FDIC); a surety bond; U.S. Treasury and U.S. agencies and instrumentalities bonds or other obligations; the bonds of the State of Arkansas, or by bonds of a political subdivision thereof which has never defaulted on any of its obligations, in an amount at least equal to the amount of such deposit or by a bond executed by a surety company authorized to do business in the State of Arkansas.

The carrying amount of total deposits, amount of the total bank balances and the custodial credit risk at June 30, 2019, are summarized as follows:

	<u>Carrying Value</u>	<u>Bank Balance</u>

NOTE 3: NOTE RECEIVABLE

On December 20, 2011, the District (Seller) executed a contract of \$100,000 with the Bridge of Hope Children's Home Inc. (Buyer) for the sale of the Vanndale Elementary School campus. The agreement stipulated a payment of \$10,000 at closing and the balance of \$90,000 to be paid from August 1, 2012 through August 2020 with five percent interest. The agreement further stipulated that as long as the Buyer is using the property as a youth home under contract with the Arkansas Department of Human Services, the Buyer would be entitled to a credit on the annual payments based on the number of students attending the District who are housed at the youth home. The number of applicable students would be confirmed on November 15, February 15, and April 15 annually and the average number of students based on those three dates would determine the amount of credit to be applied to the succeeding August payment. \$5,800 in payments were made during the year ended June 30, 2019.

NOTE 4: BONDED AND NON-BONDED DEBT

A. Debt Descriptions

The long-term debt is payable out of future income of the District. In order to liquidate the principal and interest on the bonded debt, the District has pledged 3.6 mills of the total 39.90 mill levy of the District.

The District issued \$3,355,000 in Refunding Bonds on May 7, 2019, with a final maturity date of June 30, 2044. The bonds were used to refund the March 1, 2014 bond issue.

ATRS provides retirement and disability benefits, annual cost-of-living adjustments, and death benefits to plan members and beneficiaries. Benefit and contribution provisions are established by State law and can be amended only by the Arkansas General Assembly. The Arkansas Teacher Retirement System issues a publicly available financial report that includes financial statements and required supplementary information. NOTE 6: RETIREMENT PLANS (CONTINUED)

A. Arkansas Teacher Retirement System (Continued)

(2) Funding Policy

ATRS has contributory and non-contributory plans. Contributory members are required by code to contribute 6% of their salaries. Each participating employer is required by code to contribute at a rate established by the Arkansas General Assembly. The current employer rate is 14% of covered salaries. The employer contribution was paid by the Arkansas Department of Education from the public school fund, except for those employees paid from federal funding. Employer contributions for those employees were paid by the District. Beginning July 1, 1993, the employer contribution for nonfederally funded members became the lesser of the result of multiplying the applicable percent of active member payroll for the fiscal year by the total covered reported salaries of the previous fiscal year, including any prior year reported salaries, or the amount appropriated by the Arkansas General Assembly.

The District's contribution to ATRS during the year ended June 30, 2019 was approximately \$475,820, which is equal to 14% of the established rate. Contributions made during the years ended June 30, 2018 and 2017 were approximately \$453,993 and \$456,803, respectively.

(3) Net Pension Liability

The Arkansas Department of Education has stipulated that under the regulatory basis of accounting, the requirements of Governmental Accounting Standards Board (GASB) Statement No. 68 are limited to disclosure of the District's proportionate share of the collective net pension liability. The District's proportionate share of the collective net pension liability at June 30, 2018 (actuarial valuation date and measurement date) was \$4,620,241.

NOTES TO SCHEDULE OF CAPITAL ASSETS
JUNE 30, 2019

NOTE 1: CAPITAL ASSETS

Capital assets generally result from expenditures in the governmental funds. These assets are not reported in the fund financial statement balance sheet – regulatory basis.

Capital assets are recorded at cost (or estimated historical cost) and updated for additions and retirements during the year. Donated capital assets are recorded at their estimated fair value as of the date received. Improvements are capitalized; the cost of normal maintenance and repairs that do not add value to the assets or materially extend an asset's life are not capitalized. Interest incurred during construction is not capitalized.

The District does not possess any material amounts of infrastructure capital assets, such as sidewalks and parking lots. Such items are considered to be part of the cost of buildings or other improvable property.

Capital assets not being depreciated include land and construction in progress. Improvements are depreciated over the remaining useful lives of the related capital assets. Since surplus assets are sold for immaterial amounts when declared as no longer needed for public school purposes, no salvage value is taken into consideration for depreciation purposes. Depreciation is computed using the straight-line method over the estimated useful life of the assets. The District has established capitalization thresholds and estimated useful lives as follows:

<u>Description</u>	<u>Capitalization Threshold</u>	<u>Estimated Useful Lives in Years</u>
Land	All	None
Construction in Progress	All	None

This Schedule has been prepared on the modified accrual basis of accounting. Therefore, some amounts presented in this schedule may differ from amounts presented in, or used in the presentation of the basic financial statements.

NOTE 3: MEDICAID

During the year ended June 30, 2019, the District expended \$19,201 of Medicaid from the State Department of Human Services as well as \$22,242 of ARMAC Medicaid Administrative Claiming funds. Independent Auditors' Report on Internal Control Over Financial Reporting and on Compliance and Other Matters Based on an Audit of Financial Statements Performed in Accordance with *Government Auditing Standards*

The Board of Education
Cross County School District No. 7
Cross County, Arkansas

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standard* issued by the Comptroller General of the United States, the financial statements of each major governmental fund, and the aggregate remaining fund information of Cross County School District No. 7, as of and for the year ended June 30, 2019, and the related notes to the financial statements, which collectively comprise Cross County School District No. 7's regulatory basis financial statements, and have issued our report thereon dated March 17, 2020. We issued an adverse opinion because the District prepared the financial statements on the basis of the financial reporting provisions of Arkansas Code, which is a basis of accounting other than accounting principles generally accepted in the United States of America. The effects on the financial statements of the variances between the regulatory basis of accounting and accounting principles generally accepted in the United States of America, although not reasonably determinable, are presumed to be material. However, the financial statements present fairly, in all material respects, the respective regulatory basis financial position of each major governmental fund and the aggregate remaining fund information of the District as of June 30, 2019 and the respective regulatory basis changes in financial position thereof and the respective regulatory basis budgetary comparison for the general and special revenue funds for the year then ended, on the basis of accounting described in Note 1.

Internal Control Over Financial Reporting

In planning and performing our audit of the financial statements, we considered Cross County School District No. 7's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of Cross County School District No. 7's internal control. Accordingly, we do not express an opinion on the effectiveness of Cross County School District No. 7's internal control.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or, significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether Cross County School District No. 7's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

Our responsibility is to express an opinion on compliance for each of Cross County School District No. 7's major federal programs based on our audit of the types of compliance requirements referred to above. In planning and performing our audit of compliance, we considered Cross County School District No. 7's internal control over compliance with the types of requirements that could have a direct and material effect on each major federal program to determine the auditing procedures that are appropriate in the circumstances for the purpose of expressing an opinion on compliance for each major federal program and to test and report on internal control over compliance in accordance with the Uniform Guidance, but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of Cross County School District No. 7's internal control over compliance.

A deficiency in internal control over compliance exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal program on a timely basis. *A material weakness in internal control over compliance* is a deficiency, or combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected, on a timely basis. *A significant deficiency in internal control over compliance* is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies.
