

West Campus Construction Update

Finished Projects

New student parking area getting lots of use

The new 200-space parking area for students was ready for the state of school, and has been a busy place ever since. Teachers and staff are now parking on the south side of West Campus while construction crews prepare the north side for the new building extension.

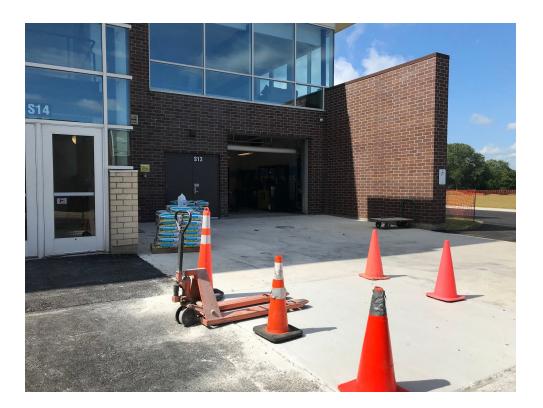

New bus lane and other improvements

In addition to the new student parking lot, several other improvements were completed over the summer at West Campus. A new temporary mobile classroom units was brought in and prepared for the start of school, and a new bus lane was completed. Also new pads were made for in the delivery area.

.....

Retention area improvements

The retention area was improved over the summer to help with site drainage.

Pool and tennis courts should be ready soon

Additional improvements to the pool deck are in process, so the pool is expected to be ready in September. Rain early in the summer slowed the progress on the new tennis courts, but they are expected to be complete in October.

Here is the full list of summer 2019 projects:

- Complete West Campus Pool Project interior tile replacement for pool and deck (HVAC and filtration system were replaced last summer)
- Construction of 10 new tennis courts
- Construction of new parking lot (next to South Lot) 200+ spaces
- New sprinkler system for varsity soccer field
- Retention pond improvements
- New Blue Point Alert system
- New temporary mobile classrooms
- Renovated bus lane
- Begin foundation work for new building extension on the north side of the building

Foundation work for the new extension

Large earth-moving machines have started the foundation preparation work for the planned 70,000-square-foot building extension at West Campus. Students have been excited to see the progress!
