

COVID-19 Update

April 16, 2020

Dear families,

I hope you're well. We are grateful for your continued support and feedback related to our closure.

During a press briefing earlier today, Governor Cuomo announced that NY PAUSE, which has restricted all non-essential businesses from operating, will be **extended until at least May 15th**. School districts will be prohibited from opening until at least this time. I am still awaiting the executive order for this announcement, but in the meantime, we are updating what we can on the website and other social media platforms.

There are many implications for extended closure, as anticipated. We will be prepared, and are working to provide communication about important information related to instruction, student events, and related responsibilities of our school district to our students and our Cooperstown community. I look forward to communicating more details to you as soon as they are available,

Please stay safe.

Dr. Crankshaw
